The Le Code Law In Traditional Vietnam:

The Lê Code Ngọc Huy Nguyễn, Văn Tài Tạ, Văn Liêm Trần, 1987 Preface by Oliver Oldman Director of East Asian Legal Studies at Harvard Law School The L Code Law in Traditional Vietnam is the first English translation of the penal code produced by Vietnam's Lê Dynasty 1428-1788 The code itself was the culmination of a long process of political social and legal development that extended into the period of the succeeding Nguyen Dynasty and in many respects into the twentieth century As is the case with cultures of other countries in East Asia Vietnam has been widely influenced by China However even though Vietnam was dominated by China from the second century B C through the tenth century A D the spirit and culture of the Vietnamese people never disappeared Like the traditional codes of Korea and Japan the L Code incorporated many provisions from the Chinese Tang Code but the Vietnamese code contains original features which reflect the distinct socio cultural and political realities of Vietnamese society Thus The L Code is a valuable instrument for gauging the extent of Chinese influence in Vietnam and the limits of that influence as well In order to emphasize the Vietnamese innovations many of which were extremely modern even by Western standards and to point out the similarities between the L Code and its Chinese models the authors have compared the Vietnamese code with several of its Chinese predecessors They have enriched the text with substantial legal and historical annotations not only on the L period but also on the dynasties immediately preceding and following it The product is at the same time a work of history and a comparative study of the traditional Chinese and Vietnamese law Only after their exile in 1975 have the authors lawyers in Vietnam and experts in Sino Vietnamese law been able to devote the time and energy necessary to translate this work They have used legal analysis historical political and social inquiry in order to compile a study of East Asian law that is more extensive in legal and historical details than any other Western language translation of an East Asian law code

The Making of Intellectual Property Law in Vietnam Tran Kien, 2025-09-03 This book is about the making of intellectual property law in Vietnam across colonial and socialist space and time from 1864 to 1994 It provides a completely new provoking narrative disproving previously published scholarship which claimed that there was no intellectual property law in Vietnam during the colonial and socialist periods In doing so the book engages with an emerging field of historiographical inquiry into the intellectual property law history in Vietnam and worldwide which investigates how and why the scholarship about the history of intellectual property law has been construed and framed as such within a specific period and space This book is comprised of three knowledge components The first involves the reconstruction of the lost intellectual property law from 1864 to 1994 in Vietnam doctrinally Relying on newly discovered archives in Vietnam and worldwide it unravels a corpus of statutory and regulatory provisions and interesting at times contradictory juridical decisions that governed and interpreted copyright patent and trademark The second is the historiographical inquiry of the making of the intellectual property law history scholarship in Vietnam This will answer the questions of how and why the particular histories had been construed and

framed as such at a particular time This involves the debate about sociopolitical ideologies underlying the meaning and application of the laws most notably colonialism and socialism Finally the third engages with the theory of legal transplantation It addresses a hypothetical question of colonial laboratory as a form of legal transplantation a new concept that this book offers to the global scholarship It demonstrates that the colonial empire had tried to use Vietnam as a laboratory for its legal reform and then transplanted the successful and feasible results back to the empire This book explains the distinctively ideological principles underlying the understanding and application of the law *The A to Z of Vietnam* Bruce M. Lockhart, William J. Duiker, 2010-04-14 Vietnam became part of French Indochina in 1887 and did not regain its independence again until after the Vietnam War However despite a relatively peaceful two decades the country experienced little economic growth because of conservative leadership policies In an effort to change this stagnation Vietnamese authorities have committed to economic liberalization and enacted structural reforms needed to modernize the economy and to produce more competitive export driven industries The A to Z of Vietnam focuses on the recent changes and leadership of Vietnam while giving due attention to the earlier kingdoms the period of French Indochina the wars for liberation the Vietnam War and much more Hundreds of cross referenced A to Z dictionary entries are included on political economic social and cultural aspects as well as the major cities and geographic features This book also contains a chronology and introduction that traces Vietnam's history as well as a bibliography **Vietnamese Law in English** Barbara G.
