Marine Environment Protection and Biodiversity Conservation Julian Roberts,2006-11-23 Despite the potential benefits that PSSA designation can deliver recent practice both within the IMO and by individual member States has considerably undermined confidence in this emerging concept The focus of this book is on the events within the IMO that have led to this lack of confidence arising In doing so this book presents an examination of coastal State practice with the PSSA concept In undertaking this analysis the research provides evidence of the value of the PSSA concept but also demonstrates its limitations In this regard the book presents a reality check which seeks to rationalise some of the heightened expectations with the concept that are apparent in the current debate The research argues that States may seek to designate PSSAs more for their iconic status than for any demonstrable environmental benefits that may be realised **Communicating in the**

Anthropocene C. Vail Fletcher,Alexa M. Dare,2021-02-04 The purpose of *Communicating in the Anthropocene Intimate Relations* is to tell a different story about the world Humans especially those raised in Western traditions have long told stories about themselves as individual protagonists who act with varying degrees of free will against a background of mute supporting characters and inert landscapes Humans can be either saviors or destroyers but our actions are explained and judged again and again as emanating from the individual And yet as the coronavirus pandemic has made clear humans are unavoidably interconnected not only with other humans but with nonhuman and more than human others with whom we share space and time Why do so many of us humans avoid deny or resist a view of the world where our lives are made possible maybe even made richer through connection In this volume we suggest a view of communication as intimacy We use this concept as a provocation for thinking about how we humans are in an always already state of being in relation with other humans nonhumans and the land The World Bank Legal Review, Volume 7 Financing and Implementing the Post-2015

Development Agenda Frank Fariello,Laurence Boisson de Chazournes,Kevin E. Davis,2016-09-06 The newly adopted post 2015 development agenda is centered on 17 sustainable development goals to be reached by 2030 This volume of the World

Bank Legal Review looks at how law and justice systems can support the financing and implementation of these goals including the role of the rule of law and economic and social rights The contributors including legal scholars development practitioners and financial experts analyze the goals explore ways in which they can be achieved and examine ways that recent relevant law and justice programs have worked A wide array of topics are covered from the legal aspects of collecting and monitoring vital data to improving legal identity programs to creating innovative health care regulation to legal and judicial reform to providing private sector financing of public education projects to the provision of global public goods Additionally a special section on Europe looks at financial crisis management enforcement of court decisions and the workings of the European Court of Justice The opportunities and challenges of the 2030 agenda are many This volume looks at both from multiple perspectives demonstrating how sustainable development can go forward in a way in which everyone benefits
