The Legends and Theories of the Buddhists Compared With History and Science R. Spence Hardy, 2015-06-05 Excerpt from *The Legends and Theories of the Buddhists Compared With History and Science With Introductory Notices of the Life and System of Gotama Buddha* The system attributed to Gotama Buddha is one of the oldest beliefs in the world It demands therefore a place among the records of religious opinion if for its antiquity alone But it has other claims upon our attention There is in it the germ of many of the speculations that are the most prominent in the shifting philosophies of the present day and it is now professed at the lowest computation by three hundred millions of the human race The information presented in these pages has a further importance as the Dhamma is comparatively unknown in England Of this we have evidence in the singular fact that the name of Gotama Buddha is not found in any work in our language that is exclusively biographical although no uninspired man has exercised a greater influence than he upon the social and religious interests of the world About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works The Legends and Theories of the Buddhists Compared With History and Science R. Spence Hardy, 2017-12-16 Excerpt from *The Legends and Theories of the Buddhists Compared With History and Science With Introductory Notices of the Life and System of Gotama Buddha* The first edition of this work was published in the island of Ceylon Its principal aim was to reveal to the adherents of the system the errors it contains but the original form is retained as the doctrines here attributed to Buddha have not been controverted so far as I can learn by any of the priests though of course they repudiate the inferences I have drawn from them We are thus warranted in concluding that they may be received as a faithful and trustworthy exposition of this wide spread creed and it is the more necessary to notice this fact as there are

many things in them that are contrary to the teachings on this subject of several authors of great name in western literature The supporters of Protestant missions will also learn in what manner and spirit their agents are conducting the great controversy that must increase in magnitude and moment until the truth has universally prevailed throughout the realm of India and a lesson may be learnt of no small significance as to the acquirements the mental furnishing requisite in the men who are chosen to do battle in this onslaught upon the most formidable of all the superstitions that oppose the spread of the Gospel of the Son of God About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The Legends and Theories of the Buddhists Compared with History and Science* HardPress, Hardy Robert Spence 1803-1868, 2013-01 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy *The Legends and Theories of the Buddhists Compared with History and Science* R.
