Roberts, 2013-09-05 First published in 1998 The Encyclopedia of Comparative Iconography compares the uses of iconographic themes from mythology the Bible and other sacred texts literature and popular culture in works of art through various periods cultures and genres Art historians now tend to study narrative themes depicted in works of art in relation to such subjects as gender and sexuality politics and power ownership

The Rise of Magic in Early Medieval Europe Valerie Irene Jane Flint, 2020-03-31 There are forces better recognized as belonging to human society than repressed or left to waste away or growl about upon its fringes So writes Valerie Flint in this powerful work on magic in early medieval Europe Flint shows how many of the more discerning leaders of the early medieval Church decided to promote non Christian practices originally condemned as magical rather than repressing them or leaving them to waste away or growl These wise leaders actively and enthusiastically incorporated specific kinds of magic into the dominant culture not only to appease the contemporary non Christian opposition but also to enhance Christianity itself

Hebrew Psalms and the Utrecht Psalter Pamela Berger, 2021-05-14 In a major departure from previous scholarship this volume argues that the illustrations in the famous and widely influential Utrecht Psalter manuscript were inspired by a late antique Hebrew version of Psalms rather than a Latin Christian version of the text Produced during the early ninth century in a workshop near Reims France the Utrecht Psalter is illustrated with pen and ink drawings in a lively style reminiscent of Hellenistic art The motifs are largely literal renditions of words and phrases found in the book of Psalms However more than three dozen motifs cannot be explained by either the Latin text that accompanies the imagery or the commentaries of the church fathers Through a close reading of the Hebrew Psalms Pamela Berger demonstrates that these motifs can be explained only by the Hebrew text the Jewish commentary or Jewish art Drawing comparisons between the Hellenistic style of the Psalter images and the style of late antique Galilean mosaics and using evidence from recent

archaeological discoveries Berger argues that the model for those Psalter illustrations dependent on the Hebrew text was produced in the Galilee Pioneering and highly persuasive this book resolves outstanding issues surrounding the origins of one of the most extensively studied illuminated manuscripts It will be mandatory reading for many historians of medieval art and literature and for those interested in the Hebrew text of the book of Psalms *Concise Biographical Companion to Index Islamicus* Wolfgang Behn, 2004-12-01 This third and last of the three volume Who's Who in Islamic Studies presents the scholarly world at long last with its own biographical encyclopaedia Taking as a starting point the inventory of authors from the renowned Index Islamicus the author Wolfgang Behn Berlin has systematically collected numerous data on the lives and works of the tens of thousands of authors listed in the Index Islamicus from 1665 to 1980 This Biographical Companion will be an indispensable reference tool for the serious student and scholar of Islamic Studies It enables the user to quickly gain knowledge on the life work and professional background of almost every major and minor author and thus to place each author in his/her proper perspective A tremendous achievement and a true must for every library
