Sebastian Luft

The Liberating Power Of Symbols:

The Liberating Power of Symbols Jürgen Habermas, 2001 Habermas engages with a wide range of twentieth century thinkers including theologian Johann Baptist Metz and Finnish philosopher Georg Henrik von Wright **The Liberating Power of Symbols** Jürgen Habermas, 2001 **Ernst Cassirer** Edward Skidelsky, 2011-10-24 This is the first English language intellectual biography of the German Jewish philosopher Ernst Cassirer 1874-1945 a leading figure on the Weimar intellectual scene and one of the last and finest representatives of the liberal idealist tradition Edward Skidelsky traces the development of Cassirer's thought in its historical and intellectual setting He presents Cassirer the author of *The Philosophy of Symbolic Forms* as a defender of the liberal ideal of culture in an increasingly fragmented world and as someone who grappled with the opposing forces of scientific positivism and romantic vitalism Cassirer's work can be seen Skidelsky argues as offering a potential resolution to the ongoing conflict between the two cultures of science and the humanities and between the analytic and continental traditions in philosophy The first comprehensive study of Cassirer in English in two decades this book will be of great interest to analytic and continental philosophers intellectual historians political and cultural theorists and historians of twentieth century Germany *Continental Divide* Peter E. Gordon, 2012-04-02 In the spring of 1929 Martin Heidegger and Ernst Cassirer met for a public conversation in Davos Switzerland They were arguably the most important thinkers in Europe and their exchange touched upon the most urgent questions in the history of philosophy What is human finitude What is objectivity What is culture What is truth Over the last eighty years the Davos encounter has acquired an allegorical significance as if it marked an ultimate and irreparable rupture in twentieth century Continental thought Here in a reconstruction at once historical and philosophical Peter Gordon reexamines the conversation its origins and its aftermath resuscitating an event that has become entombed in its own mythology Through a close and painstaking analysis Gordon dissects the exchange itself to reveal that it was at core a philosophical disagreement over what it means to be human But Gordon also shows how the life and work of these two philosophers remained closely intertwined Their disagreement can be understood only if we appreciate their common point of departure as thinkers of the German interwar crisis an era of rebellion that touched all of the major philosophical movements of the day life philosophy philosophical anthropology neo-Kantianism phenomenology and existentialism As Gordon explains the Davos debate would continue to both inspire and provoke well after the two men had gone their separate ways It remains even today a touchstone of philosophical memory This clear riveting book will be of great interest not only to philosophers and to historians of philosophy but also to anyone interested in the great intellectual ferment of Europe's interwar years *Critical Theory After Habermas* Dieter Freundlieb, Wayne Hudson, John F. Rundell, 2004-01-01 The essays in this book engage with the broad range of Jürgen Habermas work including politics and the public sphere nature aesthetics the linguistic turn and the paradigm of intersubjectivity Each essay responds to particular difficulties with Habermas approach to these topics Each contributor also

draws on different theoretical and philosophical traditions in order to explore recent developments in critical theory

Identities in Transition Georgina Tsolidis, 2020-05-06 *Sacramental Life Volume 15.4* Doug Morrison-Cleary, Amy Beveridge, Cecelia A. Weakley, Frank Coats, Hoyt L. Hickman, Robert Jarboe, David L. Schriber, David Tripp, 2003-10-18
Sacramental Life Volume 15 4 Fall 2003 Founded in 1988 Sacramental Life is one of two journals published by the Order of Saint Luke OSL Publications It focuses on the emerging and historical practices of Christian worship Print distribution is to the members of the Order globally as well as to a number of theology departments and seminary libraries in the United States *The Philosophy of Susanne Langer* Adrienne Dengerink Chaplin, 2019-10-17 This book is a comprehensive study of one of the most insightful and fertile but also most neglected philosophers of the twentieth century Susanne Langer Failure to recognise Langer's seminal philosophical sources has led to frequent misinterpretations and misunderstandings of her unique philosophical thought Beginning with an overview of Langer's life and education this study provides a much needed explanation of how Langer's thinking was shaped by four seminal sources her mentors Henry Sheffer and Alfred North Whitehead and the European philosophers Ernst Cassirer and Ludwig Wittgenstein Langer's ability to unite seemingly disparate fields such logic art and embodied cognition around the notion of symbolic form places aesthetics not at the margins of philosophy but at its very centre By locating Langer's work in the broader context of major developments in twentieth century European and American philosophy Dengerink Chaplin shows how she was often ahead of her time Shedding new light on Langer as an American philosopher whose innovative thought crosses the customary boundaries between analytic and continental philosophy this book confirms why she continues to have relevance today *Under the Spell of Freedom* Hans Joas, 2024 In *Under the Spell of Freedom* Hans Joas deconstructs the grand Hegelian narrative of human history as the self realization of the idea of freedom setting as a counterpart the sketches of a theory of the emergence of moral universalism He takes the classical views of Hegel and his emphasis on the role of Protestant Christianity and the extremely negative views about Christianity in the work of the philosopher Friedrich Nietzsche to elaborate on this new understanding of religion and freedom which encompasses a range of intellectual traditions and avoids Eurocentrism Joas answers the empirical question of when where why and how such a moral universalism emerged and developed **The Space of Culture** Sebastian Luft, 2015-10-01 Sebastian Luft presents and defends the philosophy of culture championed by the Marburg School of Neo Kantianism Following a historical trajectory from Hermann Cohen to Paul Natorp and through to Ernst Cassirer this book makes a systematic case for the viability and attractiveness of a philosophical culture in a transcendental vein in the manner in which the Marburgers intended to broaden Kant's approach In providing a philosophical study of culture Luft adheres to important Kantian tenets while addressing empirical studies of culture *The Space of Culture* culminates in an exploration of Cassirer's *Philosophy of Symbolic Forms* and argues for the extent to which Cassirer's thought was firmly rooted in the Marburg School despite his originality At the same time it shows how Cassirer

opened up the philosophical study of culture to new horizons making it attractive for contemporary philosophy

This Captivating World of Kindle Books: A Comprehensive Guide Revealing the Pros of E-book Books: A Realm of Convenience and Versatility E-book books, with their inherent mobility and simplicity of access, have freed readers from the constraints of hardcopy books.
