The Law School Global Issues Local Questions:

The Law School - Global Issues, Local Questions Fiona Cownie, 2019-01-04 First published in 1999 this international collection of essays on legal education addresses the following issues The Law School and the University Research into legal education has often been regarded as a marginal activity as compared with research into substantive areas of law However recent years have seen a growing interest in discussions about the purpose of the university law school and the ways in which law is taught within it Are we educating professional lawyers or legal scholars What do we really mean when we say we want to offer a liberal education in the law What effect are the current changes in higher education funding and policy having on law schools and what takes place within them The international group of scholars who have contributed to this collection come from very different jurisdictions but they have written about topics which while they have local resonances are of concern globally Global Issues Local Questions addresses matters which concern all law teachers whatever their field of substantive legal expertise

The Law School Fiona Cownie, 2018 *China's Legal Reform* Keyuan Zou, 2006-09-01 China's legal system has drawn ever more attention from the international community It has been developing at a very significant pace since China carried out economic reform and instituted an open door policy in 1978 China's entry into the World Trade Organization WTO has had a tremendous impact on the development and reform of China's legal system This book focuses on the recent developments of China's legal system as well as its reform in the context of globalization It covers various hot and timely topics including constitutional changes the relationship between the Chinese Communist Party and the law legislation law based administration laws for anti corruption campaigns judicial reform legal education and China's compliance with international law The book is suitable for lawyers whether practicing or academic officials in national governments and international organizations and students and scholars in academia who are interested in China Chinese law comparative and international law

Women, Their Lives, and the Law Victoria Barnes, Nora Honkala, Sally Wheeler, 2023-12-14 This collection of essays honours Rosemary Auchmuty Professor of Law at the University of Reading UK She has fostered the study of women's academic careers and more politically advanced progress on gender and equality issues including same sex marriage and property law Her research promotes the case of feminist legal history as a way of revealing the place of women and challenging dominant historical narratives that cast them aside Just as Rosemary's work does the book seeks to end the marginalisation and exclusion of women in the legal world by including them The book begins fittingly with a discussion of Miss Bebb the woman whose biography Auchmuty deployed to push feminist legal history into the mainstream It turns then to a discussion of women known and unknown and their struggles within the legal profession offering within those chapters a critical appraisal of the role of history and biography as a methodology From there it moves to consider feminist perspectives and critiques of the dominant structures of private law This is followed by chapters that explore those who educate the legal profession within the academy The chapters and the collection as a whole examine areas

of law that have a deep significance for women's lives

Globalisation and the Western Legal Tradition David B. Goldman, 2008-02-07 What can globalisation teach us about law in the Western tradition This important new work seeks to explore that question by analysing key ideas and events in the Western legal tradition including the Papal Revolution the Protestant Reformations and the Enlightenment Addressing the role of law morality and politics it looks at the creation of orders which offer the possibility for global harmony in particular the United Nations and the European Union It also considers the unification of international commercial laws in the attempt to understand Western law in a time of accelerating cultural interconnections The title will appeal to scholars of legal history and globalisation as well as students of jurisprudence and all those trying to understand globalisation and the Western dynamic of law and authority

The Global Evolution of Clinical Legal Education Richard J. Wilson, 2018 Clinical legal education has revolutionized legal education from its deepest origins in the nineteenth century to its now global reach

Readings in Law and Popular Culture Steven Greenfield, Guy Osborn, 2007-05-07 Readings in Law and Popular Culture is the first book to bring together high quality research with an emphasis on context from key researchers working at the cutting edge of both law and cultural disciplines Fascinating and varied the volume crosses many boundaries dealing with areas as diverse as football based computer games Buffy the Vampire Slayer digital sampling in the music industry the films of Sidney Lumet football hooliganism and Enid Blyton These topics are linked together through the key thread of the role of or the absence of law therefore providing a snapshot of significant work in the burgeoning field of law and popular culture Including important theoretical and truly innovative relevant material this contemporary text will enliven and inform a legal audience and will also appeal to a much broader readership of people interested in this highly topical area

The Public Understanding of Law Peter Smith, 2025-05-14 This insightful book discusses how law schools engage with the public to develop their understanding of the law It shows that effective engagement necessitates recognising the people involved as a shared community working towards both individual and collective goals

At the Edge of Law Andrew Francis, 2011 At the Edge of Law presents an analysis of the changing nature of contemporary legal professionalism It employs a methodological approach and presents a series of case studies built on original empirical research It focuses on those operating at the margins of legal professionalism in England and Wales and also includes comparative material on the US and Canada

Rules and Networks Richard Appelbaum, William Felstiner, Volkmar Gessner, 2001-12-21 International business transactions are heavily influenced by culture practice and rule The pursuit of business relationships within nation states can be subject to differences in the generation of norms and the processing of disputes but these conflicts are magnified many times over in cross border transactions where nation state control and support is weak or absent This book seeks different explanations of the ways in which business people and their legal advisers try to minimise the effect of these magnified difficulties At the outset the editors suggest four sources through which the international business community might be

considered to have supplemented nation state conflict prevention and dispute resolution institutions an international legal order the development of a private normative order based on common business practices denominated the *lex mercatoria* through the efforts and work product of internationalised law firms and by means of extensive thick personal relationships often referred to by their Chinese term *guanxi* Since most explanations are dominated by North American and European legal scholarship and practice a second concern of this book is to open up the discussion to competing explanatory frameworks Specifically it develops the notion that global legal convergence may not be the immediate inevitable result of increased global economic interaction Rather less formal mechanisms for achieving normative understanding and predictability in business dealings may also flourish
