The Lighthouse Philosopher:

The Philosophy of Virginia Woolf A. O. Frank, 2001 This book is well calculated to bring about the long awaited breakthrough in the appreciation of Virginia Woolf as an intellectual author A O Frank argues that in Woolf's mature novels we find a coherent body of philosophical thought presented in lyrical prose which is nonetheless precisely argued In sections of meticulously precise close reading Frank analyzes the complex mechanisms of textual engineering through which Woolf's ideas find expression Educated in the German Continental tradition of Aesthetics and Philosophy the author believes that for a thought to be thought out properly it needs to be thought out philosophically Speaking from a fruitfully intermediate position between British and Continental culture she highlights and explicates Woolf's philosophical thought by analyzing carefully selected passages from existential cosmological and epistemological texts by Nietzsche as well as Heidegger the later Wittgenstein and Derrida

The Soul of Classical American Philosophy Richard P. Mullin, 2012-02-01 The Soul of Classical American Philosophy is an introduction to the thought of William James Josiah Royce and Charles Sanders Peirce particularly in terms of the ethical and the spiritual Writing for the nonspecialist in a straightforward style Richard P Mullin brings together the central ideas of these three key figures of classical American Pragmatism and explores their engagement with issues of truth the meaning of self free will moral values community scientific thinking and the relationship with the transcendent He also addresses the growing international interest in American philosophy and sheds light on a defining movement in its history

The Boston Journal of Philosophy and the Arts, 1825 The Boston Journal of Philosophy and the Arts John White Webster, John Ware, Daniel Treadwell, 1825

A Mystical Philosophy Donna J. Lazenby, 2014-01-30 Revealing in an original and provocative study the mystical contents of the works of famous atheists Virginia Woolf and Iris Murdoch Donna Lazenby shows how these thinkers refusal to construe worldviews on available reductive models brought them to offer radically alternative pictures of life which maintain its mysteriousness and promote a mystical way of knowing A Mystical Philosophy contributes to the contemporary resurgence of interest in Spirituality but from an entirely new direction This book provides a warning against reductive scientific and philosophical models that impoverish our understanding of ourselves and the world and a powerful endorsement of ways of knowing that give art and a restored concept of contemplation their consummative place

The Artist-Philosopher and Poetic Hermeneutics George Smith, 2021-12-30 Focusing on the aesthetic representation of trauma George Smith outlines the nexus points between poetics and hermeneutics and shows how a particular kind of thinker the artist philosopher practices interpretation in an entirely different way from traditional hermeneutics Taking a transhistorical and global view Smith engages artists writers and thinkers from Western and non Western periods regions and cultures Thus we see that poetic hermeneutics reconstitutes philosophy and art as hybridizations of art and science the artist and the philosopher subject and object In turn the artist philosopher's poetic hermeneutic reconstitution of philosophy and art is meant to transform human consciousness This book

will be of interest to artists and scholars working in studio practice art history aesthetics philosophy cultural studies history of ideas history of consciousness psychoanalytic studies myth studies literary studies and creative writing *Women, Philosophy and Literature* Jane Duran, 2016-02-17 New work on women thinkers often makes the point that philosophical conceptual thought is where we find it examples such as Simone de Beauvoir and the nineteenth century Black American writer Anna Julia Cooper assure us that there is ample room for the development of philosophy in literary works but as yet there has been no single unifying attempt to trace such projects among a variety of women novelists This book articulates philosophical concerns in the work of five well known twentieth century women writers including writers of color Duran traces the development of philosophical themes ontological ethical and feminist in the writings of Margaret Drabble Virginia Woolf Simone de Beauvoir Toni Cade Bambara and Elena Poniatowska presenting both a general overview of the author's work with an emphasis on traditional philosophical questions and a detailed feminist reading of the work *The Philosophy of Virginia Woolf* Thomas Nail, 2025-05-29 Towards the end of her life Virginia Woolf defined her philosophy the constant idea that makes her a writer She wrote that this idea had given her the strongest pleasure known to her She called these exceptional moments or moments of being Thomas Nail contends that Woolf is a philosopher of being And these moments of being as forming a unique process philosophy of motion In her description of these moments Woolf gives us access to a world in motion and process where all of nature and matter flows ripples and quivers In these moments the anthropocentric division between humans and nature dissolves into metastable patterns without essences or vital forces Matter becomes dynamic and what originally appeared solid is perceived as woven porous and fluid *The Philosophy of Virginia Woolf* begins by defining the basic idea of the moment of being why it is important and how to understand it and its philosophical implications It recounts a series of 14 moments each of which explores an aspect of Woolf's philosophy They show how the moments evolve and articulate Woolf's process philosophy of movement Each moment reveals unique aspects of how moments work and the kind of philosophical vision Woolf held Nail concludes by addressing some of the ethical and political consequences of these moments in Woolf's thinking In the end the book contends that Woolf offers us an absolutely unique philosophical and aesthetic understanding of phenomena including nature culture desire gender writing reading consciousness art ecology and sensation It shows that Woolf is a philosopher in her own right and held a unique philosophical position that makes a unique contribution to how to think in the world *The Philosophy of Human Learning* Christopher Winch, 2002-01-04 *The Philosophy of Human Learning* addresses current concerns with the nature of human learning from a distinctive philosophical perspective Using insights derived from the work of Wittgenstein it mounts a vigorous attack on influential contemporary accounts of learning both in the romantic Rousseauian tradition and in the scientific cognitivist tradition These two schools Professor Winch argues are more closely related than is commonly realised *Philosophy in the Condition of Modernism* Ana Falcato, Antonio Cardiello, 2018-05-03 Produced on the fringes of philosophy and literary

criticism this book is a pioneering study which aims to explicitly address and thematize what may be called a critical philosophy in the condition of modernism Its most important and original contribution to both disciplines is a self conscious reflection on possible modes of writing philosophy today and a systematic comparison with what happened in literary modernism at the beginning of the twentieth century The volume is divided into six sections where internationally renowned scholars discuss such pressing topics as the role of an unreliable narrator in a major philosophical treatise the different mediums of art production and how these impact on our perception of the Work itself the role of narrative in animal ethics and the filmic adaption of a Modernist classic

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
