today s preachers teachers and serious students of the Bible giving them the tools ideas and insights they need to communicate God s Word with the same powerful impact it had when it was first written   The Augustinian Alternative Benjamin J. Wood,2017-07-15 This book s central claim is that a close reading of Augustine s epistemology can help political theologians develop affirmative accounts of political liberalism This claim is set in a scholarly context that is profoundly hostile to constructive theological readings of liberal culture As a corrective to such antagonism this book suggests that far from being natural opponents Christian communities can work fruitfully with political liberals based on common principles A key component in this argument is the theological reevaluation of the ancient skeptical tradition While the ancient skeptics are habitually treated by scholars as minor characters in the story of Augustine s theological development this volume argues that they played a significant role in shaping both Augustine s theology and the subsequent character of the Augustinian tradition By placing Augustine s reading of the skeptics in dialogue with contemporary culture this book constructs a viable form of liberal Christian politics that is attentive both to his sin sensitive account of public life and his eschatological vision of the church   *Subject Guide to Books in Print* ,1996   *The Humane Perspective* John Cottingham,2024-07-03 The book brings together fourteen essays from the work of John Cottingham on moral philosophy and the philosophy of religion spanning the past fifteen years The papers are closely related in so far as they all deal with the perennial moral and spiritual challenges of human existence and the search for meaning and value in human life As well as being thematically linked they also share a common style and methodology illustrating the distinctive goal that has increasingly informed the author s work in recent years that of promoting a more humane conception of philosophizing While in no way discarding the technical tools of the professional philosopher such as abstract argumentation and analysis whose value and importance are unquestionable this approach is notable for drawing on the full range of resources available to the human mind including those that depend on literary artistic poetic imaginative aesthetic and emotional modes of awareness In contrast to the model of the philosopher as a kind of detached scrutineer the essays exemplify the belief that there is a distinctive and valuable kind of philosophical understanding that requires a more involved and engaged stance The philosophical questions dealt in the volume all fall broadly within the familiar domains of moral philosophy and the philosophy of religion but the reflections offered on these areas of human thought and practice always aim to be sensitive to how morality and religion actually operate in the lives of the human beings involved   *Jesus and the Metaphysics of God* Vince Procopio,2023-04-24 About the Book During my formative years I realized that questions pertaining to God and Jesus were not merely abstract philosophical questions These beliefs constitute the core of one s worldview As such their pervasive influence as to how we lead our lives is relevant and consequential All my life I ve been haunted by this burning question Is physical reality all there is This book is an attempt to engage in a rational inquiry into the very heart of spirituality To be sure questions about Jesus and God are metaphysical in nature And as such science cannot enter this domain Rather as the great philosopher Immanuel Kant admonished any

individual pursuit must push to the epistemological limits of science Any remaining gap is to be filled with faith This is my journey I welcome you fellow traveler About the Author Vince Procopio was born in a small village in Italy and came to the United States at the age of seven By the age of thirteen Vince began his life long passion of weight lifting which he continues to the present day He dropped out of high school to volunteer in the United States Marine Corps in 1968 After serving a one year tour in Vietnam and under the auspices of the GI Bill Vince became a full time student through the summers from 1970 1983 His greatest passion has been learning and trying to understand the miracle of life
