Philosophical Psychology William F. O'Neill, George D. Demos, 2012-09-18 *Philosophical Psychology* contains many provocative and profound ideas some of which may be sensed as offensive by those with rather thin intellectual skins Some readers in capitalistic societies may take offense at any suggestion that Marx had some good insights about a healthier way to achieve self actualization Others may find it bizarre to read that perhaps Hitler and Stalin were in some ways happier and more self actualized in their roles as brutal tyrants than they would have been in more normal roles The range of ideas and thinkers included in this work is extensive Authors Dr William F O'Neill and Dr George Demos examine essential life issues such as pain pleasure society ethics and love culminating in a careful look at the various aspects of peak experience The chapters build toward a better understanding of the concepts of self actualization and peak experience This is essential reading for upper division and graduate level students seeking to deepen their understanding and apply the concepts of Abraham Maslow's theory of self actualization and its inherent role in education
