Enterprise Resource Planning: Solutions and Management Nah, Fiona Fui-Hoon, 2001-07-01 Enterprise resource planning ERP refers to large commercial software packages that promise a seamless integration of information flow through an organization. Traditionally, separate units were created within an organization to carry out various tasks, and these functional areas would create their own information systems, thereby giving rise to systems that were not integrated. ERP strives to provide a solution to these problems. *Enterprise Resource Planning Solutions and Management* examines the issues that need to be further studied and better understood to ensure successful implementation and deployment of ERP systems.

Database Integrity: Challenges and Solutions Doorn, Jorge Horacio, Rivero, Laura C., 2001-07-01 Geared toward designers and professionals interested in the conceptual aspects of integrity problems in different paradigms, *Database Integrity Challenges and Solutions* successfully addresses these and a variety of other issues.

Multimedia Networking: Technology, Management and Applications Syed, Mahbubur Rahman, 2001-07-01 In recent years, rapid Internet growth has pushed the development of new multimedia applications in all aspects of life, such as entertainment, communication, collaborative work, and electronic commerce. Future applications will make use of different technologies like voice, data, and video, but in order to make such a wide variety of multimedia applications successful, a number of technology and management issues must be addressed. *Multimedia Networking: Technology, Management and Applications* addresses the dynamic and efficient uses of resources, a fundamental aspect of multimedia networks. Geared toward professionals, educators, and students alike, this exciting new book will detail current research and the future direction of multimedia networking.
