

# SOCIAL STRUCTURES

social structures in sociology are the relationships or interactions between groups of different people in a society.

## IN SOCIOLOGICAL ANALYSIS

The analysis of social structures often occurs on three levels:

1. **Macro analysis** – looks at broad categories and systems like large populations and groups like entire countries or economic systems.
2. **Meso analysis** – studies communities or certain groups in a society.
3. **Micro analysis** – observes patterns and collects data from smaller groups like families, or individuals (DeCarlo, 2018).

## EXAMPLES

- 1 Nations
- 2 Economies
- 3 Racial groups
- 4 Religions
- 5 Legal systems
- 6 Political parties

## **Social Structure Politics Studies In:**

Social And Political Structures In West Germany Ursula Hoffmann-lange, Peter Jelavich, Robert Rickards, Lewis J Edinger, 2019-05-28 This book offers a view of West German social structure and political culture from a multidisciplinary perspective Focusing on the remarkable changes that have taken place in West Germany since World War II it provides a basis for judging what direction a united Germany is likely to take Government-supported Research International Affairs: Research Completed and in Progress July 1969-June 1970 Allan E. Suchinsky, United States State Government, 1971 The document describes current research projects those initiated in progress and completed during fiscal year 1970 in the social and behavioral sciences dealing with international affairs foreign areas and United States foreign policy for the use primarily of research officers throughout the Government The research descriptions are arranged by subject matter with cross references as appropriate at the end of each section Author Anthropology and Political Science Myron J. Aronoff, Jan Kubik, 2013 What can anthropology and political science learn from each other The authors argue that collaboration particularly in the area of concepts and methodologies is tremendously beneficial for both disciplines though they also deal with some troubling aspects of the relationship Focusing on the influence of anthropology on political science the book examines the basic assumptions the practitioners of each discipline make about the nature of social and political reality compares some of the key concepts each field employs and provides an extensive review of the basic methods of research that bridge both disciplines ethnography and case study Through ethnography participant observation reliance on extended case studies and the use of anthropological concepts and sensibilities a greater understanding of some of the most challenging issues of the day can be gained For example political anthropology challenges the illusion of the autonomy of the political assumed by political science to characterize so called modern societies Several chapters include a cross disciplinary analysis of key concepts and issues political culture political ritual the politics of collective identity democratization in divided societies conflict resolution civil society and the politics of post Communist transformations **Research Methods in Politics** Wyn Grant, 2008-06-17 The second edition of this popular text provides a comprehensive introduction to the main research methods employed in the study of politics and assessment of their strengths and limitations and of ethical issues in research It has been revised and updated throughout and a new chapter considers the relationship between research and policy GATE Sociology [XH-C6] Sets of 2 Theory Books As Per Updated Syllabus, 2024-10-13 Covered All 8 Chapters as Per Updated Syllabus Theory Cover in Detail Elaborate Each Every Topic Use Digram to Explain Design by Expert Faculties Studies in Tudor and Stuart Politics and Government: Volume 3, Papers and Reviews 1973-1981 G. R. Elton, Geoffrey Rudolph Elton, 2003-02-13 This volume continues the publication of Professor Elton s collected papers on topics in the history of Tudor and Stuart England All appeared between 1973 and 1981 As before they are reprinted exactly as originally published with corrections and additions in footnotes They include the author s four presidential addresses to the Royal

Historical Society and bring together his preliminary findings in the history of Parliament and its records Several of them which appeared in various collections and Festschriften have been difficult to find and some are taken from locations in Germany and the United States unfamiliar to English readers The eight lengthy reviews here republished examine some of the major questions in the history of the age and throw light on the principles of investigation which underlie the author's own research

*Johns Hopkins University Studies in Historical and Political Science* Johns Hopkins University, 1886

**Environmental Politics in Japan** Jeffrey Broadbent, 1999-07-28 After World War Two Japan attained economic growth but suffered environmental disaster In response to massive protest in the 1960s and 1970s the Japanese government rapidly reduced the worst air and water pollution Jeffrey Broadbent's case study of industrial growth and pollution in a rural Japanese prefecture explains this response while testing political social movement and

environmental theory The state conservative political party and big business pushed rampant growth until movements posed a political and disruptive challenge Then the elites passed some pollution control but also demobilized local protest quashed discontent and prevented the formation of national environmental groups Without the protest threat business stymied other government pollution control plans The interaction of material institutional and cultural factors especially informal institutions explained the dominance of actors and the pattern of outcomes Through this syncretic lens in a non Western setting this study refines our theories of the state protest movements political process and environmental problems

Population, Ethnicity, And Nation-building Calvin Goldscheider, 2019-07-11 This volume focuses on the linkages between ethnicity and population processes in the context of nation building Using historical and contemporary illustrations in a variety of countries parts of this complex puzzle are scrutinized through the prisms of sociology history political science anthropology and demography Themes of ethnic group formation and transformation persistence and assimilation demographic transitions and convergences and the processes of political mobilization and economic development are described and compared Case studies from Southeast Asia China Africa Brazil Israel the former Soviet Union Canada Europe and the United States are presented by leading scholars The examples illustrate the diversity of contexts that connect population ethnicity and nation building raising new questions and comparative problems The importance of ethnic conflict for issues of inequality and group disadvantage in the emerging societies of Asia Africa and the Middle East in the politics of race and immigration in western societies and in European and American history emerges from the research The multidisciplinary emphasis addresses core themes of ethnicity and nation building in comparative perspectives Stanford

Studies in History, Economics, and Political Science , 1922 **Social Structure, Space and Possession in Tongan**

**Culture and Language** Svenja Völkel, 2010 This interdisciplinary study investigates the relationship between culture language and cognition based on the aspects of social structure space and possession in Tonga Polynesia Grounded on extensive field research Völkel explores the subject from an anthropological as well as from a linguistic perspective The book provides new insights into the language of respect an honorific system which is deeply anchored in the societal hierarchy spatial descriptions that are determined by socio cultural and geocentric parameters kinship terminology and possessive categories that perfectly express the system of social status inequalities among relatives These examples impressively show that language is deeply anchored in its cultural context Moreover the linguistic structures reflect the underlying cognitive frame of its speakers Just as several cultural practices sitting order access to land and gift exchange processes the linguistic means are not only expressions of stratified social networks but also tools to maintain or negotiate the underlying socio cultural system
