Made in Mexico Chris Goertzen,2010-10-21 Made in Mexico examines the aesthetic political and sociopolitical aspects of tourism in southern Mexico particularly in the state of Oaxaca Tourists seeking authenticity buy crafts and festival tickets and spend even more on travel expenses What does a craft object or a festival moment need to look like or sound like to please both tradition bearers and tourists in terms of aesthetics Under what conditions are transactions between these parties psychologically healthy and sustainable What political factors can interfere with the success of this negotiation and what happens when the process breaks down With Subcommandante Marcos and the Zapatistas still operating in neighboring Chiapas and unrest on the rise in Oaxaca itself these are not merely theoretical problems Chris Goertzen analyzes the nature and meaning of a single craft object a woven pillowcase from Chiapas thus previewing what the book will accomplish in greater depth in Oaxaca He introduces the book s guiding concepts especially concerning the types of aesthetic intensification that have replaced fading cultural contexts and the tragic partnership between ethnic distinctiveness and oppressive politics He then brings these concepts to bear on crafts in Oaxaca and on Oaxaca s Guelaguetza the anchor for tourism in the state and a festival with an increasingly contested meaning *The Culture of Migration in Southern*

Mexico Jeffrey H. Cohen,2009-06-03 Migration is a way of life for many individuals and even families in the Mexican state of Oaxaca Some who leave their rural communities go only as far as the state capital while others migrate to other parts of Mexico and to the United States Most send money back to their communities and many return to their homes after a few years Migration offers Oaxacans economic opportunities that are not always available locally but it also creates burdens for those who stay behind This book explores the complex constellation of factors that cause rural Oaxacans to migrate the historical and contemporary patterns of their migration the effects of migration on families and communities and the economic cultural and social reasons why many Oaxacans choose not to migrate Jeffrey Cohen draws on fieldwork and survey data from twelve communities in the central valleys of Oaxaca to give an encompassing view of the factors that drive migration and determine its outcomes He demonstrates conclusively that while migration is an effective way to make a living no single model can explain the patterns of migration in southern Mexico **Between Art and Artifact** Ronda L.

Brulotte,2012-07-01 Oaxaca is internationally renowned for its marketplaces and archaeological sites where tourists can buy inexpensive folk art including replicas of archaeological treasures Archaeologists art historians and museum professionals sometimes discredit this trade in fakes that occasionally make their way to the auction block as antiquities Others argue that these souvenirs represent a long cultural tradition of woodcarving or clay sculpting and are genuine artifacts of artisanal

practices that have been passed from generation to generation allowing community members to preserve their cultural practices and make a living Exploring the intriguing question of authenticity and its relationship to cultural forms in Oaxaca and throughout southern Mexico Between Art and Artifact confronts an important issue that has implications well beyond the commercial realm Demonstrating that identity politics lies at the heart of the controversy Ronda Brulotte provides a nuanced inquiry into what it means to present authentic cultural production in a state where indigenous ethnicity is part of an awkward social and racial classification system Emphasizing the world famous woodcarvers of Arrazola and the replica purveyors who come from the same community Brulotte presents the ironies of an ideology that extols regional identity but shuns its artifacts as forgeries Her work makes us question the authority of archaeological discourse in the face of local communities who may often see things differently A departure from the dialogue that seeks to prove or disprove authenticity Between Art and Artifact reveals itself as a commentary on the arguments themselves and what the controversy can teach us about our shifting definitions of authority and authorship

World Heritage Sites and Tourism Laurent Bourdeau, Maria Gravari-Barbas, Mike Robinson, 2016-11-10 Not all World Heritage Sites have people living within or close by their boundaries but many do The designation of World Heritage status brings a new dimension to the functioning of local communities and particularly through tourism Too many tourists accentuated by the World Heritage label or in some cases not enough tourists despite anticipation of increased numbers can act to disrupt and disturb relations within a community and between communities Either way tourism can be seen as a form of activity that can generate interest and concern as it is played out within World Heritage Sites But the relationships that World Heritage Sites and their consequent tourism share with communities are not just a function of the number of tourists The relationships are complex and ever changing as the communities themselves change and are built upon long standing and wider contextual factors that stretch beyond tourism This volume drawing upon a wide range of international cases relating to some 33 World Heritage Sites reveals the multiple dimensions of the relations that exist between the sites and local communities The designation of the sites can create obscure and heighten the power relations between different parts of a community between different communities and between the tourism and the heritage sector Increasingly the management of World Heritage is not only about the management of buildings and landscapes but about managing the communities that live and work in or near them

Caring for the People of the Clouds Jonathan Yahalom, 2019-04-04 In rural Mexico people often say that Alzheimer's does not exist People do not have Alzheimer's because they don't need to worry said one Oaxacan explaining that locals lack the stresses that people face over there that is in the modern world Alzheimer's and related dementias carry a stigma In contrast to the way elders are revered for remembering local traditions dementia symbolizes how modern families have forgotten the communal values that bring them together In Caring for the People of the Clouds psychologist Jonathan Yahalom provides an emotionally evocative story rich analysis of family caregiving for Oaxacan elders living with dementia Based on his extensive

research in a Zapotec community Yahalom presents the conflicted experience of providing care in a setting where illness is steeped in stigma and locals are concerned about social cohesion. Traditionally the Zapotec or people of the clouds respected their elders and venerated their ancestors. Dementia reveals the difficulty of upholding those ideals today. Yahalom looks at how dementia is understood in a medically pluralist landscape, how it is treated in a setting marked by social tension, and how caregivers endure challenges among their families and the broader community. Yahalom argues that caregiving involves more than just a response to human dependency; it is central to regenerating local values and family relationships threatened by broader social change. In so doing, the author bridges concepts in mental health with theory from medical anthropology. Unique in its interdisciplinary approach, this book advances theory pertaining to cross-cultural psychology and develops anthropological insights about how aging, dementia, and caregiving disclose the intimacies of family life in Oaxaca.

Transforming Therapy Whitney L. Duncan, 2018-07-24. Oaxaca is known for many things: its indigenous groups, archaeological sites, crafts, and textiles, but not for mental health care. When one talks with Oaxacans about mental health, most say it's a taboo topic and that people there think you have to be crazy to go to a psychologist. Yet throughout Oaxaca are signs advertising the services of *psicólogos*; there are prominent conferences of mental health professionals and self-help groups like Neurotics Anonymous thrive where participants rise to say *Hola mi nombre es Raquel y soy neurótica*. How does one explain the recent growth of Euroamerican style therapies in the region? Author Whitney L. Duncan analyzes this phenomenon of *psy*-globalization and develops a rich ethnography of its effects on Oaxacans' understandings of themselves and their emotions, ultimately showing how globalizing forms of care are transformative for and transformed by the local context. She also delves into the mental health impacts of migration from Mexico to the United States, both for migrants who return and for the family members they leave behind. This book is a recipient of the Norman L. and Roselea J. Goldberg Prize from Vanderbilt University Press for the best book in the area of medicine.
