Education and Social Mobility P.T. Thomas, This book focuses on the provision of basic social services in particular access to education as the central building blocks of any human development strategy and it also signifies a substantial contribution towards the central role of education in social mobility In examining the impact of educational development of any society or group the questions that the proponents of egalitarian approach ask are Who benefits Who loses What is the resulting socio economic status of the people Although gender inequality in education is not so prominent in Kerala the difference between communities and classes is one of the critical aspects of this broader phenomenon of disparity in Kerala Recent studies regarding poverty and inequality show that although poverty is declining inequality between socio economic groups is increasing in Kerala In this scenario the educational backwardness of the socio economic groups in Kerala is a matter of particular concern to the policy makers and this book hopes to provide some insight into this subject It will be highly useful to policy makers administrators and academicians *Selected Writings on Media, Propaganda, and Political Communication* Siegfried Kracauer, 2022-05-17 Siegfried Kracauer stands out as one of the most significant theorists and critics of the twentieth century acclaimed for his analyses of film and popular culture However his writing on propaganda and politics has been overshadowed by the works of his contemporaries and colleagues associated with the Frankfurt School This book brings together a broad selection of Kracauer s work on media and political communication much of it previously unavailable in English It features writings spanning more than two decades from studies of totalitarian propaganda written in the 1930s to wartime work on Nazi newsreels and anti Semitism through to examinations of American and Soviet political messaging in the early Cold War period These varied texts illuminate the interplay among politics mass culture and the media and they encompass Kracauer s core concerns the individual and the masses the conditions of cultural production and the critique of modernity The introduction and afterword explore the significance of Kracauer s contributions to critical theory film and media studies and the analysis of political communication both in his era and the present day At a time when demagoguery and bigotry loom over world politics Kracauer s inquiries into topics such as the widespread appeal of fascist propaganda and the relationship of new media forms and technologies to authoritarianism are strikingly relevant

Beginning Theory Peter Barry, 1995 Though poets have always written about cities the commonest critical categories pastoral poetry nature poetry Romantic poetry Georgian poetry etc have usually stressed the rural so that poetry can seem irrelevant to a predominantly urban populati Explores a range of contemporary poets who visit the mean streets of the contemporary urban scene seeking the often cacophonous music of what happens here Poets discussed include Ken Smith

Iain Sinclair Roy Fisher Edwin Morgan Sean O'Brien Ciaran Carson Peter Reading Matt Simpson Douglas Houston Deryn Rees Jones Denise Riley Ken Edwards Levi Tafari Aidan Hun and Robert Hampson Approaches contemporary poetry within a broad spectrum of personal social literary and cultural concerns Includes loco specific chapters on cities including Hull Liverpool London and Birmingham with an additional chapter on post industrial cities such as Belfast Glasgow and Dundee

Selected Readings in Municipal Problems Joseph Wright, 1925 Selected Readings on Modern Japanese Society George K. Yamamoto, Tsuyoshi Ishida, 1971 **Selected Reading Lists for Advanced Study** Commonwealth Institute (Great Britain), 1968 *The Anthem Companion to Raymond Boudon* Christian Robitaille, Robert Leroux, 2024-06-04 This book seeks to identify the main threads of a resolutely complex course of thought which has contributed greatly to sociology Although he founded no school Raymond Boudon certainly made original contributions to the discipline in his own time including his theory of rationality his interpretation of the work of the founders of sociology and his explanation of educational inequalities He also presented convincing arguments about how the overly narrow utilitarianism of mainstream economists was incomplete and betrayed major theoretical gaps It is true in any case that his thought laid the groundwork for many theoretical and empirical social studies Through an analysis of the most important parts of this thought each of the chapters will not merely demonstrate the scientific rigor which can be associated to his work but also show how it remains relevant to our understanding of contemporary society and how it can hence be used for future research projects There can be no doubt Boudon's thought has for various reasons undergone new assessments Chapters of this book hence reflect a variety of points of view on how his work can be understood criticized and used for future research endeavors **Selected Writings: Economic and methodological thought** Barbara Wootton, 1992 **The Social Life of Children in a Changing Society** K. M. Borman, 2019-01-22 This book developed from a symposium in which participants examined childhood socialization from a number of perspectives and with several disciplinary lenses The major purpose of the symposium and thus of this volume is to provide an integrative multidisciplinary discussion of the social development of preschool and young elementary school aged children As a result there are contributions to this volume from anthropologists Leacock Ogbu psychologists Lippincott Mueller Ramey and Snow sociologists Borman Denzin and scholars who have self consciously adopted an interdisciplinary framework First published in 1984 Routledge is an imprint of Taylor Francis an informa company **Realism and Complexity in Social Science** Malcolm Williams, 2020-12-30 Realism and Complexity in Social Science is an argument for a new approach to investigating the social world that of complex realism Complex realism brings together a number of strands of thought in scientific realism complexity science probability theory and social research methodology It proposes that the reality of the social world is that it is probabilistic yet there exists enough invariance to make the discovery and explanation of social objects and causal mechanisms possible This forms the basis for the development of a complex realist foundation for social research that utilises a number of new and novel approaches to

investigation alongside the more traditional corpus of quantitative and qualitative methods Research examples are drawn from research in sociology epidemiology criminology social policy and human geography The book assumes no prior knowledge of realism probability or complexity and in the early chapters the reader is introduced to these concepts and the arguments against them Although the book is grounded in philosophical reasoning this is in a direct and accessible style that will appeal both to social researchers with a methodological interest and philosophers with an interest in social investigation

EPA-600/5, 1974-02 *Human Migration* J. J. Mangalam, 2014-07-15 In this guide to the literature on human migration J J Mangalam indexes over 2 000 titles that appeared in English from 1955 through 1962 An important feature of this work is the annotation of nearly 400 major articles on migration These annotations provide information on the main focus of the study the hypotheses tested and any special measuring devices employed The conclusions are also given using the authors words whenever possible To facilitate the use of this guide the author has compiled an index that lists not only the subjects treated but also the major variables used in each abstracted study thus the researcher who is interested in the use of certain variables can easily refer to the previous investigation of the influence of these factors upon migration In a comprehensive introduction Mangalam surveys the current state of studies of human migration and suggests a theoretical framework by which the vast amount of existing facts from different migration studies can be integrated and given meaning
