Social Problems In Africa New Visions:

Social Problems in Africa Apollo Rwomire, 2001-07-30 Despite the recent growth of research on social problems facing the people of sub Saharan Africa there remains a critical lack of conceptual epistemological and empirical research and documentation This sophisticated new book attempts to fill that gap by synthesizing interpreting and extending the existing literature on conditions that constitute serious impediments to socio economic development in Africa It provides an original and up to date survey of key problems ranging from poverty and inequality to violence and crime The contributors all of whom have lived or worked in Africa show how social problems emerge how they are defined and how various actors attempt to deal with them This timely book provides a much needed analysis of the major issues and debates regarding the dynamics of social problems in the African context Social Problems in Africa is broken into four parts The first introduces readers to the nature of social problems in general and provides a framework for analyzing and understanding social problems in an African context Part II on culture human rights and democracy examines these crucial aspects of social problems in Africa as well as issues such as language and colonialism Part III focuses on poverty and inequality while conflict and violence is the focus of Part IV Together the chapters in this volume provide the most comprehensive and systematic approach to the issues available bringing much needed attention to the problems in Africa from the perspective of scholars who have lived and worked there

Government Daniel Jordan Smith, 2022-03-08 An up close account of how Nigerians self reliance in the absence of reliable government services enables official dysfunction to strengthen state power When Nigerians say that every household is its own local government what they mean is that the politicians and state institutions of Africa s richest most populous country cannot be trusted to ensure even the most basic infrastructure needs of their people Daniel Jordan Smith traces how innovative entrepreneurs and ordinary citizens in Nigeria have forged their own systems in response to these deficiencies

devising creative solutions in the daily struggle to survive Drawing on his three decades of experience in Nigeria Smith examines the many ways Nigerians across multiple social strata develop technologies businesses social networks political strategies cultural repertoires and everyday routines to cope with the constant failure of government infrastructure He describes how Nigerians provide for basic needs like water electricity transportation security communication and education and how their inventiveness comes with consequences On the surface it may appear that their self reliance and sheer hustle render the state irrelevant In reality the state is not so much absent as complicit Smith shows how private efforts to address infrastructural shortcomings require regular engagement with government officials shaping the experience of citizenship and strengthening state power Every Household Its Own Government reveals how these dealings have contributed to forms and practices of governance that thrive on official dysfunction and perpetuate the very inequalities and injustices that afflict struggling Nigerians
