H. Hinsley, Francis Harry Hinsley, 1967-10 In the last years of the nineteenth century peace proposals were first stimulated by fear of the danger of war rather than in consequence of its outbreak In this study of the nature and history of international relations Mr Hinsley presents his conclusions about the causes of war and the development of men s efforts to avoid it In the first part he examines international theories from the end of the middle ages to the establishment of the League of Nations in their historical setting This enables him to show how far modern peace proposals are merely copies or elaborations of earlier schemes He believes there has been a marked reluctance to test these theories not only against the formidable criticisms of men like Rousseau Kant and Bentham but also against what we have learned about the nature of international relations and the history of the practice of states This leads him to the second part of his study an analysis of the origins of the modern states system and of its evolution between the eighteenth century and the First World War *The Soviet Study of International Relations* Allen Lynch, 1989-07-28 Current divergence from traditional Leninist orthodoxy is attributed to such phenomena as nuclear warfare continued Western prosperity and the Sino Soviet split according to this systematic analysis of Soviet foreign policy **The Use of Personal Narratives in the Helping Professions** Jessica K Heriot, Eileen J Polinger, 2014-01-02 Use these fascinating first person accounts to bring real world problems into the classroom *The Use of Personal Narratives in the Helping Professions A Teaching Casebook* is a collection of personal narratives short stories and poetry about mental illness and other life affecting problems mostly in the context of family life Each selection is accompanied by questions for discussion selected reading lists are provided with each chapter Beginning with problems related to childhood the stories range through adolescence adulthood and old age This unique book provides students and educators in psychology social work and counseling with an in depth understanding of various mental illnesses and psychosocial problems through the life cycle Its stories and narratives give students the unique opportunity to experience from the inside what it is like to live with an eating disorder or struggle with a compulsion phobia *The Use of Personal Narratives in the Helping Professions* is more than a teaching tool These stories are more than thought provoking more than simply insightful They are truly fascinating each a candid no holds barred glimpse into the personal reality of its narrator and will inspire the kind of discussions that the best courses and instructors are remembered for Your students will most likely have finished the book before the class has finished discussing the first chapter With *The Use of Personal Narratives in the Helping Professions* your students will explore family relationships under various types of stress how families cope with physical illness what happens to the family when a loved one struggles with mental illness the impact of racial issues the effects of sexual abuse and domestic violence the process of healing from childhood trauma and much more

Understanding Peace and Conflict Through Social Identity Theory Shelley McKeown, Reeshma Haji, Neil Ferguson, 2016-06-17 This volume brings together perspectives on social identity and peace psychology to explore the role that categorization plays in both conflict and peace building To do so it draws leading scholars from across the world in a comprehensive exploration of social identity theory and its application to some of the world's most pressing problems such as intrastate conflict uprising in the middle east the refugee crisis global warming racism and peace building A crucial theme of the volume is that social identity theory affects all of us no matter whether we are currently in a state of conflict or one further along in the peace process The volume is organized into two sections Section 1 focuses on the development of social identity theory Grounded in the pioneering work of Dr Henri Tajfel section 1 provides the reader with a historical background of the theory as well as its current developments Then section 2 brings together a series of country case studies focusing on issues of identity across five continents This section enables cross cultural comparisons in terms of methodology and findings and encourages the reader to identify general applications of identity to the understanding of peace as well as applications that may be more relevant in specific contexts Taken together these two sections provide a contemporary and diverse account of the state of social identity research in conflict situations and peace psychology today It is evident that any account of peace requires an intricate understanding of identity both as a cause and consequence of conflict as well as a potential resource to be harnessed in the promotion and maintenance of peace *Understanding Peace and Conflict Through Social Identity Theory Contemporary Global Perspectives* aims to help achieve such an understanding and as such is a valuable resource to those studying peace and conflict psychologists sociologists anthropologists public policy makers and all those interested in the ways in which social identity impacts our world

Fundamentals of Cognitive-Behavior Therapy

Carlton Munson, Bill Borchardt, 2014-04-23 A central premise of cognitive behavior therapy is that individuals bring themselves to their emotions and behavior by how they think. *Fundamentals of Cognitive Behavior Therapy* helps therapists and counselors address the important questions of cognitive behavior therapy: what to ask, how to respond to difficult exchanges with clients, and why to make chosen responses. It helps them get at the cognitive base of clients' emotional disturbances more quickly. The book is unique in that it presents more than a textbook approach to problem solving; it provides a wealth of data and philosophy that enables clinicians to respond more helpfully to client problems. Readers of *Fundamentals of Cognitive Behavior Therapy* learn what therapeutic questions to ask and what responses to give to psychotherapy clients' common difficult questions and statements in ways that better contribute to the long-range happiness and survival of the client. This insightful book encourages therapists to help clients help themselves by showing therapists effective, detailed responses that help clients answer their own questions and come to their own conclusions about why they react certain ways to specific situations. Among the 164 troublesome client questions and statements to which Borchardt offers rational responses are: "But I don't feel like it," "I can't make a decision because I don't know if it is the right one," "Why won't things work out for me?" "I can't help it," "I have so many problems and feelings that I don't know where to begin dealing with them," "Why don't I change?" "Why do I keep goofing up?" "Whose side are you on anyway?" Through this detailed look at the therapist's role in heightening client awareness of self, author Bill Borchardt, who has thirty years' experience as a therapist, provides a storehouse of practical, hands-on tactics which encourages a problem-solving focus while preventing conversational drifting. He gives readers insights on basic principles of emotional reeducation and well-being in psychotherapy as teaching, overcoming emotional disturbance tendencies, getting individuals to answer their own questions so they can expose their own potential solutions, understanding and overcoming clients' resistance to change, a client-centered method of problem solving, interviewing. The book illustrates that the primary medium of the therapist's influence is funneled through both direct questions asked of the client and through the therapist's responses to client questions and commentary. Suggested questions and responses in the book help practitioners prepare for interviews and better understand clients' resistance to change. Designed for students in training as well as the beginning or seasoned practitioner, *Fundamentals of Cognitive Behavior Therapy* includes 172 rational questions and 164 rational responses, each with commentary that shows the clinical justifications for asking these questions and offering these responses. Social workers, psychologists, guidance counselors, psychiatrists, nurses in mental health settings, marital family counselors, alcohol and drug abuse counselors, and other human service professionals will find *Fundamentals of Cognitive Behavior Therapy* filled with practical and insightful guidelines for better helping their psychotherapy clients. Marxism, Revolution, and Peace Society for the Philosophical Study of Dialectical Materialism, 1977

Theory as Ideology in International Relations Benjamin Martill, Sebastian Schindler, 2020-03-13 Are theoretical tools nothing but political weapons How can the two be distinguished from each other What is the ideological role of theories like liberalism neoliberalism or democratic theory And how can we study the theories of actors from outside the academic world This book examines these and related questions at the nexus of theory and ideology in International Relations The current crisis of politics made it abundantly clear that theory is not merely an impartial and neutral academic tool but instead is implicated in political struggles However it is also clear that it is insufficient to view theory merely as a political weapon This book brings together contributions from a number of different scholarly perspectives to engage with these problems The contributors drawn from various fields of International Relations and Political Science cast new light on the ever problematic relationship between theory and ideology They analyse the ideological underpinnings of existing academic theories and examine the theories of non academic actors such as staff members of international organisations Ecovillagers and liberal politicians This edited volume is a must read for all those interested in the contemporary political crisis and its relation to theories of International Relations Peace Forum ,1913
