**Compass on the Ocean: Chinese Maritime Theory, History and Culture** Guozhen Yang,2024-11-09 This book is a theoretical study of China s maritime development and maritime humanities and social sciences as well as a study of China s maritime historiography China is a large country with both land and sea rich in biodiversity and the ocean is an important environment for the Chinese nation to survive and thrive In history the Chinese nation has developed its own maritime economy maritime society and maritime humanistic model As a natural body the ocean treats all littoral nations equally and it is neither open nor closed to any one of them Due to the different maritime environments the ways the coastal nations adapt vary accordingly hence the maritime culture is characterized by plurality and diversity The contacts and exchanges between maritime civilizations in history are riddled with misunderstandings exclusions conflicts and confrontations Therefore it is necessary to develop dialogues among varied maritime civilizations of varied countries which as a result will develop together through mutual tolerance seek common ground while shelving differences and extract the idea of maritime civilization for all mankind through mutual learning and complementing each other

**Theories Of Comparative Politics** Ronald H

Chilcote,2018-02-12 Extensively revised and updated this classic text revisits the central problem of searching for mainstream and alternative paradigms to guide us in comparative political inquiry Building upon the first edition s comprehensive and systematic overview of frameworks ideologies and theories the second edition highlights new directions

and developments over the past decade including the continuation of an ideological political science methodological innovations such as rational choice historical and postbehavioural approaches new emphases on and links between political culture and participation the recasting of modernization theory and the revitalization of class analysis and a thoroughgoing post Keynesian political economy point of view The second edition continues the tradition of the first in updating what one reviewer commended as outstanding excellent annotated bibliographies at the end of each chapter and the thorough survey of the general literature of comparative politics at the end of the book In addition the new edition includes an appendix of definitions that facilitate clarity and understanding of political science terminology important for students at every level from the introductory on up In a post Cold War world in which challenges to comparative inquiry abound ethnic conflict authoritarian repression state building and disintegration new industrialization and postindustrialization security systems redefined the search for new paradigms that Theories of Comparative Politics represents gains in importance daily

**Political Protest and Social Change** Charles F. Andrain, David Ernest Apter, 1995-09 At the close of the twentieth century political protests have erupted throughout the world While the collapse of communism was certainly one of the most spectacular protest related events smaller protests have become ubiquitous In Los Angeles labor activists campaign against commercial real estate owners to unionize janitors mainly Latina immigrants In the People s Republic of China peasants revolt against tax collectors Amazonian Indians protest public and economic policies that destroy their culture and rainforest habitat This book analyzes the reciprocal impact of cultural beliefs sociopolitical structures and individual behaviors on protests throughout the world Why do individuals participate in protest activities How do cultural beliefs personal attitudes and subjective perception influence the potential protester Addressing the issue of agency in protest the authors also examine why protestors enlist different tactics to achieve their goals Why are some protests violent and others nonviolent When and why do activists conclude that it is better to accommodate than confront Finally and crucially what are the consequences of protest movements

Arguing Comparative Politics Alfred C. Stepan, 2001 This volume brings together new and classic articles by one of the leading scholars in comparative politics The articles focus in particular on the nature of contemporary democracy and its prospects The volume begins with a personal analysis of the intellectual and often political reasons why and how Stepan chose to engage in certain critical arguments over the last thirty years The volume is then divided into three sections each with a distinctive theme state and society constructing polities and varieties of democracies The introduction and articles ask whether both for intellectual and political reasons there are strong grounds for questioning both Rawls and Huntington on religion and democracy Riker on federalism and Gellner on multinationalism The volume contains articles on civil society political society economic society the military and a usable state The possibility of multiple and complementary political identities is argued for The incentive systems and political practices of the three macro constitutional frameworks for democratic government parliamentarianism presidentialism and semi presidentialism are

compared and contrasted      *Comparative Politics* Daniele Caramani,2008 Comparative Politics provides a comprehensive introduction to political systems around the world It covers methods and theories the nation state institutions actors and processes policies and recent changes      **Education: A Field of Study** Anit Kumar Srivastava,2019-12-27 Education A field of study is an Academic book It is useful for trainee teachers and teacher Educators In this book various aspects include alike interdisciplinary nature of Education SWOT analysis and Emerging trends in Education      Critical Theory and World Politics Andrew Linklater,2007-09-12 This new collection of Andrew Linklater s key work demonstrates his enormous contribution to the development of critical theory in international relations      **Routledge Handbook of Southeast Asian Politics** Richard Robison,2012-03-12 Now available in paperback this Handbook provides a comprehensive analysis of the major themes that have defined the politics of Southeast Asia It provides a comprehensive and cutting edge examination of this important subject The introductory chapter provides an overview of the theoretical and ideological themes that have dominated the study of the region s politics and presents the different ways the complex politics of the region have been understood The contributions by leading scholars in the field cover a range of broad questions about the dynamics of politics The Handbook analyses how the dominant political and social coalitions of the region were forged in the Cold War era and assesses the complex processes of transition towards various forms of democratic politics How institutions and systems of governance are being forged in an increasingly global environment is discussed and whether civil society in Southeast Asia has really evolved as an independent sphere of social and political activity The Handbook examines how national governments are dealing with growing tensions within the region as matters such as labour human rights and the environment spill beyond national boundaries and how they are establishing a place in the new global framework By engaging the Southeast Asian experience more firmly with larger debates about modern political systems the Handbook is an essential reference tool for students and scholars of Political Science and Southeast Asian studies      **Politics and Change in Developing Countries** Colin Leys,2011-02-03 This 1969 work gathers together essays on Third World development by nine social scientists with diverse academic interests These contributions are united by a relative uncertainty in relation to development derived from the contemporary critical reappraisal of the area together with a need to create fresh methodologies for the advancement of their respective fields
