The Freedom Schools Jon N. Hale, 2016-06-07 Created in 1964 as part of the Mississippi Freedom Summer the Mississippi Freedom Schools were launched by educators and activists to provide an alternative education for African American students that would facilitate student activism and participatory democracy The schools as Jon N Hale demonstrates had a crucial role in the civil rights movement and a major impact on the development of progressive education throughout the nation Designed and run by African American and white educators and activists the Freedom Schools counteracted segregationist policies that inhibited opportunities for black youth Providing high quality progressive education that addressed issues of social justice the schools prepared African American students to fight for freedom on all fronts Forming a political network the Freedom Schools taught students how when and where to engage politically shaping activists who trained others to challenge inequality Based on dozens of first time interviews with former Freedom School students and teachers and on rich archival materials this remarkable social history of the Mississippi Freedom Schools is told from the perspective of those frequently left out of civil rights narratives that focus on national leadership or college protestors Hale reveals the role that school age students played in the civil rights movement and the crucial contribution made by grassroots activists on the local level He also examines the challenges confronted by Freedom School activists and teachers such as intimidation by racist Mississippians and race relations between blacks and whites within the schools In tracing the stories of Freedom School students into adulthood this book reveals the ways in which these

individuals turned training into decades of activism Former students and teachers speak eloquently about the principles that informed their practice and the influence that the Freedom School curriculum has had on education They also offer key strategies for further integrating the American school system and politically engaging today's youth *A Chance for Change* Crystal R. Sanders, 2016-02-10 In this innovative study Crystal Sanders explores how working class black women in collaboration with the federal government created the Child Development Group of Mississippi CDGM in 1965 a Head Start program that not only gave poor black children access to early childhood education but also provided black women with greater opportunities for political activism during a crucial time in the unfolding of the civil rights movement Women who had previously worked as domestics and sharecroppers secured jobs through CDGM as teachers and support staff and earned higher wages The availability of jobs independent of the local white power structure afforded these women the freedom to vote in elections and petition officials without fear of reprisal But CDGM's success antagonized segregationists at both the local and state levels who eventually defunded it Tracing the stories of the more than 2,500 women who staffed Mississippi's CDGM preschool centers Sanders's book remembers women who went beyond teaching children their shapes and colors to challenge the state's closed political system and white supremacist ideology and offers a profound example for future community organizing in the South *Multicultural America* Carlos E. Cortés, 2013-08-15 This comprehensive title is among the first to extensively use newly released 2010 U.S. Census data to examine multiculturalism today and tomorrow in America This distinction is important considering the following NPR report by Eyder Peralta Based on the first national numbers released by the Census Bureau the AP reports that minorities account for 90 percent of the total U.S. growth since 2000 due to immigration and higher birth rates for Latinos According to John Logan a Brown University sociologist who has analyzed most of the census figures The futures of most metropolitan areas in the country are contingent on how attractive they are to Hispanic and Asian populations Both non-Hispanic whites and blacks are getting older as a group These groups are tending to fade out he added Another demographer William H. Frey with the Brookings Institution told The Washington Post that this has been a pivotal decade We're pivoting from a white-black dominated American population to one that is multiracial and multicultural *Multicultural America* A Multimedia Encyclopedia explores this pivotal moment and its ramifications with more than 900 signed entries not just providing a compilation of specific ethnic groups and their histories but also covering the full spectrum of issues flowing from the increasingly multicultural canvas that is America today Pedagogical elements include an introduction a thematic reader's guide a chronology of multicultural milestones a glossary a resource guide to key books journals and Internet sites and an appendix of 2010 U.S. Census Data Finally the electronic version will be the only reference work on this topic to augment written entries with multimedia for today's students with 100 videos with transcripts from Getty Images and Video Vault the Agence France Press and Sky News as reviewed by the media librarian of the Rutgers University Libraries working in concert with the title's editors *Freedom's Orator* Robert

Cohen,2009-08-27 Here is the first biography of Mario Savio the brilliant leader of Berkeley's Free Speech Movement the largest and most disruptive student rebellion in American history Savio risked his life to register black voters in Mississippi in the Freedom Summer of 1964 and did more than anyone to bring daring forms of non violent protest from the civil rights movement to the struggle for free speech and academic freedom on American campuses Drawing upon previously unavailable Savio papers as well as oral histories from friends and fellow movement leaders Freedom's Orator illuminates Mario's egalitarian leadership style his remarkable eloquence and the many ways he embodied the youthful idealism of the 1960s The book also narrates for the first time his second phase of activism against Reaganite Imperialism in Central America and the corporatization of higher education Including a generous selection of Savio's speeches Freedom's Orator speaks with special relevance to a new generation of activists and to all who cherish the 60s and democratic ideals for which Savio fought so selflessly

To Write in the Light of Freedom William Sturkey,Jon N. Hale,2015-02-16 Fifty years after Freedom Summer To Write in the Light of Freedom offers a glimpse into the hearts of the African American youths who attended the Mississippi Freedom Schools in 1964 One of the most successful initiatives of Freedom Summer more than forty Freedom Schools opened doors to thousands of young African American students Here they learned civics politics and history curriculum that helped them instead of the degrading lessons supporting segregation and Jim Crow and sanctioned by White Citizen's Councils Young people enhanced their self esteem and gained a new outlook on the future And at more than a dozen of these schools students wrote edited printed and published their own newspapers For more than five decades the Mississippi Freedom Schools have served as powerful models of educational activism Yet little has been published that documents black Mississippi youths responses to this profound experience

The Citizenship Education Program and Black Women's Political Culture Deanna M. Gillespie,2023-03-07 This book details how African American women used lessons in basic literacy to crack the foundation of white supremacy and sow seeds for collective action during the civil rights movement

Student Activism in 1960s America Magnus O. Bassey,2024-08-23 This book sheds light on the untold stories of individual student activists at Queens College New York City during the 1960s Against the backdrop of the ongoing Vietnam War and the assassination of President John F Kennedy some Americans began to lose faith in their government Based on injustices that students saw in their campuses in the country and in the world at large they began to question their political leaders Students organized their discontents over three major issues civil rights free speech and anti war sentiments Their protests involved direct actions such as sit ins marches picketing and boycotts At Queens College QC as the students moved away from the repressive McCarthy era of the 1950s they began to confront and challenge those in power at the college in the 1960s The defining characteristic of this break from the past was a student strike in 1961 in objection to the ban of controversial speakers who had been invited to campus by student clubs The student strike of 1961 gave the activists among them a direct and immediate way to fight power on campus and to fight racism and discrimination The author argues

that student movements cannot be attributed to a single explanation and therefore he focuses on individual historical contexts presenting first person narratives from the actual participants and tells their stories in their own voices from their own records and from the documents they left behind The book identifies the QC student activists of the 1960s exploring how and why they became activists their activities their achievement as activists and what motivated them to think that they could make history themselves by confronting racism It provides an intimate look at the students lives and their social justice journey beginning at Queens College and as they moved into their careers

We Will Shoot Back Akinyele Omowale Umoja, 2013-04-22 Ranging from Reconstruction to the Black Power period this thoroughly and creatively researched book effectively challenges long held beliefs about the Black Freedom Struggle It should make it abundantly clear that the violence nonviolence dichotomy is too simple to capture the thinking of Black Southerners about the forms of effective resistance Charles M Payne University of Chicago The notion that the civil rights movement in the southern United States was a nonviolent movement remains a dominant theme of civil rights memory and representation in popular culture Yet in dozens of southern communities Black people picked up arms to defend their leaders communities and lives In particular Black people relied on armed self defense in communities where federal government officials failed to safeguard activists and supporters from the violence of racists and segregationists who were often supported by local law enforcement In We Will Shoot Back Armed Resistance in the Mississippi Freedom Movement Akinyele Omowale Umoja argues that armed resistance was critical to the efficacy of the southern freedom struggle and the dismantling of segregation and Black disenfranchisement Intimidation and fear were central to the system of oppression in Mississippi and most of the Deep South To overcome the system of segregation Black people had to overcome fear to present a significant challenge to White domination Armed self defense was a major tool of survival in allowing some Black southern communities to maintain their integrity and existence in the face of White supremacist terror By 1965 armed resistance particularly self defense was a significant factor in the challenge of the descendants of enslaved Africans to overturning fear and intimidation and developing different political and social relationships between Black and White Mississippians This riveting historical narrative relies upon oral history archival material and scholarly literature to reconstruct the use of armed resistance by Black activists and supporters in Mississippi to challenge racist terrorism segregation and fight for human rights and political empowerment from the early 1950s through the late 1970s Akinyele Omowale Umoja is Associate Professor and Chair of the Department of African American Studies at Georgia State University where he teaches courses on the history of the Civil Rights Black Power and other social movements
