The Liberty Of Choice Freedom And Justice In Education:

The Liberty of Choice McLaughlin (Sister Raymond.),1979 **School Choice and Social Justice** Harry Brighthouse,2003 School choice the leading educational reform proposal in the English speaking world today evokes extreme responses its defenders present it as the saviour its opponents as the death knell of a fair educational system Disagreement and vagueness about what constitutes social justice in education muddies the debate The author provides a new theory of justice for education arguing that justice requires that all children have a real opportunity to become autonomous persons and that the state use a criterion of educational equality for deploying educational resources Through systematic presentation of empirical evidence the author argues that existing schemes do not fare well against the criterion of social justice yet this need not impugn school choice Brighthouse offers a school choice proposal that could implement social justice and explains why other essential educational reforms can be compatible with choice **Social Justice and Educational Measurement** Zachary Stein,2016-03-31 Social Justice and Educational Measurement addresses foundational concerns at the interface of standardized testing and social justice in American schools Following John Rawls s philosophical methods Stein builds and justifies an ethical framework for guiding practices involving educational measurement This framework demonstrates that educational measurement can both inhibit and ensure just educational arrangements It also clarifies a principled distinction between efficiency oriented testing and justice oriented testing Through analysis of several historical case studies that exemplify ethical issues related to testing this book explores and propounds speculative design principles and arguments in favour of radically democratic school reforms which address how the future of testing might be shaped to ensure justice for all These case studies cover the widespread use of IQ style testing in schools during the early decades of the 20th century the founding of the Educational Testing Service and the recent history of test based accountability associated with No Child Left Behind Social Justice and Educational Measurement will be essential reading for academics researchers and postgraduate students in education testing and assessment and the philosophy of education It will also be of interest to policymakers and educational administrators **Reclaiming Freedom in Education** Max A. Hope,2018-11-02 Reclaiming Freedom in Education examines the notion of freedom within educational settings Following an investigation of the new Free Schools in the UK it argues that this name is a misnomer and instead explores the original free schools of the 1960s and 1970s using these models as a lens through which to explore contemporary examples of radical schooling notably those which describe themselves as democratic and or progressive By arguing that in radical educational contexts both positive freedom and negative freedom are apparent and that the notion that responsible freedom is more pertinent than that of absolute freedom this book posits that freedom can be seen to operate in a number of ways including freedom to be freedom to think freedom to choose and freedom to self govern The book Describes how freedom can be used to inform educational structures policies pedagogies and practices across a range of settings Features illustrative case studies of radical free schools and alternative

education spaces which have been underpinned by a commitment to freedom and to advancing social justice Critiques the current policy agenda to use freedom to make education more competitive through claims that it correlates with higher test scores and academic success Considers some of the challenges for teachers educators and students of offering and experiencing freedom in education and argues that despite these the case for advancing freedom is both urgent and compelling Creating discussions about the new meaning and role that freedom can have in improving education Reclaiming Freedom in Education is a practical contribution to educational activism which will be a key point of reference for teachers parents researchers and students on undergraduate and postgraduate courses in Education Studies Early Childhood Studies and doctorates

From Civil Partnership to Same-Sex Marriage Nicola Barker, Daniel Monk, 2015-04-17 The Civil Partnership Act 2004 and the Marriage Same Sex Couples Act 2013 are important legal social and historical landmarks rich in symbolic material and cultural meanings While fiercely opposed by many within mainstream narratives they are often represented as a victory in a legal reform process that commenced with the decriminalisation of homosexuality Yet at the same time for others they represent a problematic and ambivalent political engagement with the institution of marriage Consequently understood or labelled as revolutionary progressive and conservative these legal reforms provide a space for thinking about issues that arguably affect everyone regardless of sexual orientation or relationship status This edited collection brings together scholars and commentators from a range of backgrounds generations and disciplines to reflect on the first ten years of civil partnerships and the introduction of same sex marriage Rather than rehearsing the arguments for and against relationship recognition the essays ask original questions draw on a variety of methods and collectively provide a detailed and reflective snap shot of a critical moment a history of the present as well as providing a foundation for innovative ways of thinking about and engaging with the possibilities and experiences arising from the new reality of relationship recognition for gays and lesbians
