Toward a 21st-Century School Library Media Program Esther Rosenfeld, David V. Loertscher, 2007-10-15 This collection of enlightening and stimulating articles written by some of the most important figures in school librarianship demonstrates how teacher librarians, classroom teachers, and administrators can work together to create a 21st-century school library media program. With topics that emphasize student success, leadership, partnerships, curriculum design, collaborative planning, and teaching literacy, 21st-century skills, emerging technologies, and so much more, this compendium brings together the best of the best discussions. The practicing teacher librarian, as well as the student seeking to expand his or her knowledge of the field, will find this compilation especially beneficial in providing an overview of the most critical issues related to the role the teacher librarian plays in their school. The articles previously published in the peer-reviewed *Teacher Librarian*, *The Journal for School Library Professionals*, with several included from the magazine *VOYA*, *Voice of Youth Advocates*, reveal how school libraries and teacher librarians are moving forward to meet the challenges of this new century.

Administering the School Library Media Center Betty J. Morris, 2010-08-16 This is the most comprehensive textbook on school library administration available now, updated to include the latest standards and address new technologies. Since the publication of the fourth edition of *Administering the School Library Media Center* in 2004, many changes have altered the landscape of school library administration: the implementation of NCLB legislation and the revision of AASL standards, just to mention two. The book is divided into 14 chapters, each devoted to a major topic in school library media management. This latest edition gives media specialists a roadmap for designing a school library that is functional and intellectually stimulating, while leading sources provide guidance for further research.
