The Life Of Nelson The Embodiment Of The Seapower Of Great Britain:

The Life of Nelson Alfred Thayer Mahan, 1897 **The Life of Nelson: The Embodiment of the Sea Power of Great Britain** Alfred Thayer Mahan, 2013-05-27 Horatio Nelson is the most famous seaman in British history Many books about him have appeared until today but the study of Alfred Thayer Mahan published in 1897 is still one of the best written pieces and a standard work in the field of Nelson s biography research It was part of Mahan s seapower studies and contains Nelson s impressive life story as well as Mahan s own view on naval strategy and warfare tactics It is essential to the completeness and rounding off of the author s discussion of the Influence of Sea Power that he present a study from his own point of view of the one man who in himself summed up and embodied the greatness of the possibilities which Sea Power comprehends the man for whom genius and opportunity worked together to make him the personification of the Navy of Great Britain Reprint of the original edition from 1897 Volume 1 of 2 Alfred Thayer Mahan 1840 1914 was a US Navy officer and author of influential marine history and strategy books His work *The Influence of Sea Power upon History* published in 1890 established the modern US Navy doctrine of maritime predominance the higher the naval power of a country the greater its global impact Mahan s concepts of naval war tactics were adapted by many navies all over the world *The Life of Nelson I* A. T. Mahan, 2016-08-26 The Life of Nelson has been written so often that an explanation almost an apology seems due for any renewal of the attempt but not to mention the attractiveness of the theme in itself it is essential to the completeness and rounding off of the author s discussion of the Influence of Sea Power that he present a study from his own point of view of the one man who in himself summed up and embodied the greatness of the possibilities which Sea Power comprehends the man for whom genius and opportunity worked together to make him the personification of the Navy of Great Britain the dominant factor in the periods hitherto treated In the century and a half embraced in those periods the tide of influence and of power has swelled higher and higher floating upward before the eyes of mankind many a distinguished name but it is not until their close that one arises in whom all the promises of the past find their finished realization their perfect fulfilment Thenceforward the name of Nelson is enrolled among those few presented to us by History the simple mention of which suggests not merely a personality or a career but a great force or a great era concrete in a single man who is its standard bearer before the nations Yet in this process of exaltation the man himself even when so very human and so very near our own time as Nelson is suffers from an association which merges his individuality in the splendor of his surroundings and it is perhaps pardonable to hope that the subject is not so far exhausted but that a new worker gleaning after the reapers may contribute something further towards disengaging the figure of the hero from the glory that cloaks it The aim of the present writer while not neglecting other sources of knowledge has been to make Nelson describe himself tell the story of his own inner life as well as of his external actions **The Life of Nelson: The Embodiment of the Sea Power of Great Britain (Complete)** Alfred Thayer Mahan, The Life of Nelson has been written so often that an explanation almost an apology seems

due for any renewal of the attempt but not to mention the attractiveness of the theme in itself it is essential to the completeness and rounding off of the author's discussion of the Influence of Sea Power that he present a study from his own point of view of the one man who in himself summed up and embodied the greatness of the possibilities which Sea Power comprehends the man for whom genius and opportunity worked together to make him the personification of the Navy of Great Britain the dominant factor in the periods hitherto treated In the century and a half embraced in those periods the tide of influence and of power has swelled higher and higher floating upward before the eyes of mankind many a distinguished name but it is not until their close that one arises in whom all the promises of the past find their finished realization their perfect fulfilment Thenceforward the name of Nelson is enrolled among those few presented to us by History the simple mention of which suggests not merely a personality or a career but a great force or a great era concrete in a single man who is its standard bearer before the nations Yet in this process of exaltation the man himself even when so very human and so very near our own time as Nelson is suffers from an association which merges his individuality in the splendor of his surroundings and it is perhaps pardonable to hope that the subject is not so far exhausted but that a new worker gleaning after the reapers may contribute something further towards disengaging the figure of the hero from the glory that cloaks it The aim of the present writer while not neglecting other sources of knowledge has been to make Nelson describe himself tell the story of his own inner life as well as of his external actions To realize this object it has not seemed the best way to insert numerous letters because in the career of a man of action each one commonly deals with a variety of subjects which bear to one another little relation except that at the moment of writing they all formed part of the multifold life the writer was then leading It is true life in general is passed in that way but it is not by such distraction of interest among minute details that a particular life is best understood Few letters therefore have been inserted entire and those which have have been chosen because of their unity of subject and of their value as characteristic The author's method has been to make a careful study of Nelson's voluminous correspondence analyzing it in order to detect the leading features of temperament traits of thought and motives of action and thence to conceive within himself by gradual familiarity even more than by formal effort the character therein revealed The impression thus produced he has sought to convey to others partly in the form of ordinary narrative daily living with his hero and partly by such grouping of incidents and utterances not always nor even nearly simultaneous as shall serve by their joint evidence to emphasize particular traits or particular opinions more forcibly than when such testimonies are scattered far apart as they would be if recounted in a strict order of time

hero is as relevant to today's readers as it was when first published Despite the obvious differences between Horatio Nelson's world and our own his leadership qualities remain exemplary and his navy wrestled with economic and political influences that are remarkably similar to those exerted on navies of the twenty first century
