What does it feel like to stare into the face of madness Or to anticipate your own Would you drive away your only love Could you pretend it didn t matter How far would you go to protect a friend or to avenge a death Ten years ago Devon gave up the love of her life fearing she would one day fall victim to the mental illness that has slowly ravaged the mind of her mother who is now being cared for in a private facility Just when it seems Devon might have a chance to make up for past mistakes her best friend Cass becomes a suspect in the murder of her sister s drug dealing boyfriend Devon knows Cass is lying about the details of her involvement and the lead detective on the case convinced that Cass is guilty is relentless in his pursuit of justice When her mother s young emotionally disturbed roommate insinuates she knows something about the night of the murder as well as details from Devon s own life that no one else is privy to Devon becomes desperate to uncover the truth before Detective Lake does As the investigation continues Devon is led down a path she never expected and forced to face her greatest fears of life and love Tangled in a web of lies regrets and questions can she find a way to let go of the past and start again And once the mystery is solved can she live with the secrets she s uncovered Join author Devon Pearse in this semi autobiographical journey through the most heartbreakingly beautiful and deceptively mysterious events of her own life and the lives of those closest to her [Basic Principles of Cable Supported Bridges](#) DR. B C ROY,2024-05-15 This book presents a brief design approach for cable supported bridges based on experiences from past projects both domestic and international that were shared by experts in bridge engineering The specifications outlined in the book are adopted in the design of several cable stayed and extradosed bridges in India and abroad These specifications are in conformance with the global best practices In addition reference literature has been consulted during the compilation of various sections of the book In this endeavor the author sought suggestions and collective guidance from some eminent specialists in cable supported bridges from the USA Europe and Asia in order to provide a glimpse of practices across the globe In this book the

author has attempted to highlight the basic principles of cable supported bridges and the same should be used only as a guideline for design It is believed that the reader would have acquired sufficient knowledge of analysis and design of complex bridges before going through this book Lastly brief case studies of two notable Indian bridges the Second Vivekananda Extradosed Nivedita Bridge and Burdwan Cable Stayed Bridge are provided While the former is an example of extradosed structure for Hooghly River crossing the latter is a three pylon first time in India cable stayed bridge over railway tracks These examples will elucidate the purpose of this book and make it useful to young practicing bridge engineers
