The Latest Winter:

The Last Winter Porter Fox, 2021-11-02 One man's curiously thrilling joyride of travelogue history and climatology across a planet on the brink of cataclysmic transformation Donovan Hohn As the planet warms winter is shrinking In the last fifty years the Northern Hemisphere lost a million square miles of spring snowpack and in the US alone snow cover has been reduced by 15-30% On average winter has shrunk by a month in most northern latitudes In this deeply researched beautifully written and adventure filled book journalist Porter Fox travels along the edge of the Northern Hemisphere's snow line to track the scope of this drastic change and how it will literally change everything from rapid sea level rise to fresh water scarcity for two billion people to massive greenhouse gas emissions from thawing permafrost and a half dozen climate tipping points that could very well spell the end of our world This original research is animated by four harrowing and illuminating journeys each grounded by interviews with idiosyncratic charismatic experts in their respective fields and Fox's own narrative of growing up on a remote island in Northern Maine Timely atmospheric and expertly investigated *The Last Winter* will showcase a shocking and unexpected casualty of climate change that may well set off its own unstoppable warming cycle

The Last Winter of the Weimar Republic Rüdiger Barth, Hauke Friederichs, 2020-02-04 A thrilling day by day account of the final months of the Weimar Republic documenting the collapse of democracy in Germany and Hitler's frightening rise to power November 1932 With the German economy in ruins and street battles raging between rival political parties the Weimar Republic is on its last legs In the halls of the Reichstag party leaders scramble for power and influence as the elderly president Paul von Hindenburg presides over a democracy pushed to the breaking point Chancellors Franz von Papen and Kurt von Schleicher spin a web of intrigue vainly hoping to harness the growing popularity of Adolf Hitler's Nazi Party while reining in its most extreme elements These politicians struggle for control of a turbulent city where backroom deals and frightening public rallies alike threaten the country's fragile democracy with terrifying consequences for both Germany and the rest of the world In *The Last Winter of the Weimar Republic* Barth and Friedrichs have drawn on a wide array of primary sources to produce a colorful multi-layered portrait of a period that was by no means predestined to plunge into the abyss and which now seems disturbingly familiar
