FDR ADDRESSES THE NATION IN "FIRESIDE CHATS"

*O*n Sunday March 12, 1933 - just eight days after his inauguration - President Franklin D. Roosevelt delivered his first radio "fireside chat" to the American people. The new President had made sweeping changes to the banking laws, and this was his opportunity to address the people and explain to them why such drastic measures had been taken.

The "chat" started at 10 p.m. from the President's study in the White House. Millions of people listened to his comforting words during a time of great uncertainty. Roosevelt started his speech with the simple phrase, "I want to talk for a few minutes with the people of the United States about banking." Explaining why the banks had been closed down on March 6, he outlined what the government was doing to make sure banks were safe and that a banking crisis would not happen again.

The "fireside chats" were an informal way for the President to communicate with the American people. Roosevelt first introduced them to great effect when he was Governor of New York.

However, the Presidential chats were reserved for only the most vital issues of the day. Their frequency ranged from one in some years to as many as four per year at the height of World War II. In total, Roosevelt delivered 30 "fireside chats" during his four terms in office.

The speeches were usually short and simple - and very popular. When a "fireside chat" was broadcast, people gathered around their radios and listened attentively. The typical speech lasted less than 30 minutes, during which Roosevelt addressed a particular situation in a straightforward manner.

With the exception of two speeches that were broadcast from his family home in Hyde Park, New York, all of Roosevelt's "fireside chats" originated from the White House. Two of the most significant "fireside chats" related to the economy were the "100 Days Chat" and the "100 Days Chat" in 1933, explaining the New Deal's impact on the economy. Another notable "fireside chat" was the "100 Days Chat" in 1933, explaining the New Deal's impact on the economy.

propping up the country on his New Deal platform In fact FDR has achieved mythical status in American history and is considered to be along with Washington Jefferson and Lincoln one of the greatest presidents of all time But would the Great Depression have been so catastrophic had the New Deal never been implemented In FDR s Folly historian Jim Powell argues that it was in fact the New Deal itself with its shortsighted programs that deepened the Great Depression swelled the federal government and prevented the country from turning around quickly You ll discover in alarming detail how FDR s federal programs hurt America more than helped it with effects we still feel today including How Social Security actually increased unemployment How higher taxes undermined good businesses How new labor laws threw people out of work And much more This groundbreaking book pulls back the shroud of awe and the cloak of time enveloping FDR to prove convincingly how flawed his economic policies actually were despite his good intentions and the astounding intellect of his circle of advisers In today s turbulent domestic and global environment eerily similar to that of the 1930s it s more important than ever before to uncover and understand the truth of our history lest we be doomed to repeat it *The Biography Book* Daniel S.

The Three Roosevelts James MacGregor Burns,Susan Dunn,2001 Examines the lives of American leaders Theodore Franklin and Eleanor Roosevelt looking at how they emerged from lives of privilege to become the instigators of progressive change in the United States and considering their impact on the political and moral landscape of the country **Franklin Delano Roosevelt** Conrad Black,2012-03-13 Franklin Delano Roosevelt stands astride American history like a colossus having pulled the nation out of the Great Depression and led it to victory in the Second World War Elected to four terms as president he transformed an inward looking country into the greatest superpower the world had ever known Only Abraham Lincoln did more to save America from destruction But FDR is such a large figure that historians tend to take him as part of the landscape focusing on smaller aspects of his achievements or carping about where he ought to have done things differently Few have tried to assess the totality of FDR s life and career Conrad Black rises to the challenge In this magisterial biography Black makes the case that FDR was the most important person of the twentieth century transforming his nation and the world through his unparalleled skill as a domestic politician war leader strategist and global visionary all of which he accomplished despite a physical infirmity that could easily have ended his public life at age thirty nine Black also
