The Light Of Learning:

The Light of Learning Daisaku Ikeda, 2021-11-01 This new selection of writings on education many previously published under the title Soka Education comes from some five decades of works by Buddhist philosopher and founder of the Soka schools system Daisaku Ikeda From educational proposals and university lectures to personal essays the writings not only delve into the meaning of soka value creating education but offer a hopeful vision of the power of education to bring happiness to the individual and peace to the world *The Light of Learning* Glenn Dynner, 2023 The available sources on Hasidic society at the turn of the twentieth century create an impression of discontented Jewish youth and panicked parents but not inexorable crisis and decline Though the First World War and post war pogroms further destabilized Hasidic society they inadvertently created opportunities for the reinvention and revitalization of traditionalist education The challenges of the early twentieth century would prove more galvanizing than demoralizing for certain visionary reform minded Hasidic leaders *The Analogy Between the Light of Inspiration and the Light of Learning* Samuel Horsley, 1787
