Sinkiang Story:

The Sinkiang Story Jack Chen, 1977 Soviet Policy in Xinjiang Jamil Hasanli, 2020-12-03 Using recently declassified Soviet documents Jamil Hasanli examines Soviet involvement in the anti China rebellion in East Turkistan Hasanli takes readers back to the early 1930s when the Turkic national movement was suppressed by the Soviet government and the USSR Hasanli deftly illustrates how Stalin s policies toward the movement changed after the turning point of World War II and the treachery of Sheng Shicai leading up to the 1944 establishment of the Eastern Turkistan Republic and the start of the Cold War

Turkic Peoples Of The World Margaret Bainbridge, 2013-10-28 First Published in 1993 From time to time the outbreak of hostilities in some part of the world or other brings to the notice of the Western media peoples of whose very existence they have previously been unaware We may mention two such which have made headlines in 1989 and 1990 the Turks of Bulgaria and the Azerbaijanis of the Soviet Union and Iran Too frequently however in interpreting such events observers tend to attribute the conflict to the one factor which happens to be fashionable at the time currently that factor seems to be religion Too rarely do they observe other differences which may exist between the parties in conflict and which may in the end prove more potent for instance that the factor most likely to set people apart from each other as they go about their daily business may not be religion at all but language As an example of this too few have pointed out that the Azerbaijanis of the Soviet Union differ from the neighbouring Armenians not only in religion but also in language and that this contrasts with the situation over the border where the Azerbaijanis of Iran differ from neighbouring Iranians only in language in speaking Turkic for they share with the majority Persian population their Shi ite Muslim faith This volume holds a collection of essays on the Turkic people in different countries

The Ili Rebellion Linda Benson, 1990 In 1944 Moslem forces in China s westernmost province of Xinjiang rose against the Chinese authorities and succeeded in establishing a small independent Islamic state the East Turkestan Republic Based on newly available archival material this book describes the Moslem challenge to Chinese rule and documents the Nationalist government s response to newly awakened Turkic Moslem nationalism on China s most remote

and politically sensitive north western frontier With this book Linda Benson aims to break new ground in the study of Sino Soviet relations and especially of the policies of Chinese governments toward their national minorities **China's Last Nomads** Linda Benson, Ingvar Svanberg, 2016-09-16 This study based on Chinese publications and archival materials as well as on recent fieldwork provides an up to date treatment of Kazak history and culture emphasizing the Kazaks in 20th century China and in particular their status today as one of China's minority nationalities *The Pundits* Derek Waller, 2021-10-21 On a September day in 1863 Abdul Hamid entered the Central Asian city of Yarkand Disguised as a merchant Hamid was actually an employee of the Survey of India carrying concealed instruments to enable him to map the geography of the area Hamid did not live to provide a first hand count of his travels Nevertheless he was the advance guard of an elite group of Indian trans Himalayan explorers recruited trained and directed by the officers of the Great Trigonometrical Survey of India who were to traverse much of Tibet and Central Asia during the next thirty years Derek Waller presents the history of these explorers who came to be called native explorers or pundits in the public documents of the Survey of India In the closed files of the government of British India however they were given their true designation as spies As they moved northward within the Indian subcontinent the British demanded precise frontiers and sought orderly political and economic relationships with their neighbors They were also becoming increasingly aware of and concerned with their ignorance of the geographical political and military complexion of the territories beyond the mountain frontiers of the Indian empire This was particularly true of Tibet Though use of pundits was phased out in the 1890s in favor of purely British expeditions they gathered an immense amount of information on the topography of the region the customs of its inhabitants and the nature of its government and military resources They were able to travel to places where virtually no European could venture and did so under conditions of extreme deprivation and great danger They are responsible for documenting an area of over one million square miles most of it completely unknown territory to the West Now thanks to Waller's efforts their contributions to history will no longer remain forgotten **China's Bloody Century** R. J. Rummel, 2017-07-12 Except for Soviet citizens no people in this century have endured so much mass killing as have the Chinese They have been murdered by rebels conniving with their own rulers and then after the defeat in war of the imperial dynasty by soldiers of other lands They have been killed by warlords who ruled one part of China or another They have been executed by Nationalists or Communists because they had the wrong beliefs or attitudes or were simply in the wrong place at the wrong time In China's Bloody Century R J Rummel's careful estimate of the total number of killings exceeds 5 million How do we explain such killings crossing ideological bounds and political conditions According to Rummel the one constant factor in all the Chinese mass murder as it was in the Soviet Union and Nazi Germany is arbitrary power It was the factor that united warlords Nationalists Communists and foreign armies The author argues that whenever such undisciplined power is centralized and unchecked the possibility exists that it will be used at the whim of dictators to kill for their own ends whether the aim is ethnic racial purity national unity

development or utopia The book presents successive periods in modern Chinese history with each chapter divided into three parts Rummel first relates the history of the period within which the nature and the amount of killings are presented He then provides a detailed statistical table giving the basic estimates with their sources and qualifications The final part offers an appendix that explains and elaborates the statistical computations and estimates While estimates are available in the literature on the number of Chinese killed in Communist land reform or in Tibet or by the Nationalists in one military campaign or another until this book no one has tried to systematically accumulate organize add up and analyze these diverse killings for all of China's governments in this century For

Gladney, 2004-04 Until quite recently Western scholars have tended to accept the Chinese representation of non Han groups as marginalized minorities Dru C Gladney challenges this simplistic view arguing instead that the very oppositions of majority and minority primitive and modern are historically constructed and are belied by examination of such disenfranchised groups as Muslims minorities or gendered others Gladney locates China and Chinese culture not in some unchanging essential Chinese-ness but in the context of historical and contemporary multicultural complexity He investigates how this complexity plays out among a variety of places and groups examining representations of minorities and majorities in art movies and theme parks the invention of folklore and creation

Montgomery, 2001-10-30 Comparing the spread of Christianity to the East to its more successful spread to the West Montgomery illustrates the uneven diffusion of one of the world's most influential and successful religions Through his sociological analysis the author examines the causes for Christianity's success to the West and its relative failings in major societies to the east of Jerusalem including India Persia and China Applying five variables including Christianity's missionary orientation geography intersocietal relations sociocultural structures and individual perceptions Montgomery provides a theory of the diffusion of religion in general and of Christianity in particular Beginning by laying out the variables he will apply to the study Montgomery carefully explains his approach introducing the reader to this unique field of study He then moves on to examine Christianity's earliest spread to areas east of Jerusalem An examination of the rise of Islam in the East precedes a comparative analysis of the success of Christianity in its spread to the West to its relative failure to spread to the East He concludes with a discussion of religious pluralism Groundbreaking in its attempt to establish a better understanding of religious diffusion this work will be indispensable to those interested in the study of sociology of religions religious studies missionary studies and Christianity
