Ahrari,2011-11-15 This is a study of great power relations China India and Russia among themselves and with the hegemon United States Ahrari argues that the next decade may witness the emergence of a bipolar order where China s dominance in economics is certain however China will not seriously challenge the military dominance of the U S

**Historical Dictionary of Chinese Foreign Affairs** Lawrence R. Sullivan,2018-09-18 In an act of totally unnecessary and wanton destruction British forces in China during the Second Opium War 1856 1860 looted and destroyed much of the Old Imperial Summer Palace Yuanmingyuan including three imperial gardens and hundreds of halls pavilions and temples stock full of ancient artwork antiquities and literary works More than a hundred years later President Xi Jinping 2013 of the People s Republic of China PRC proclaimed the rejuvenation of the Chinese nation with the economic and especially military power to prevent any such recurrence of national humiliation Though not yet a superpower equal in global stature to the United States the PRC is undoubtedly poised to become the equal if not the superior power in the Asia Pacific region expanding its territorial claims in the South China Sea and asserting undisputed economic dominance With government business and academic leaders debating how regional and global powers should respond to a rising China Historical Dictionary of Chinese Foreign Affairs contains a chronology an introduction a glossary

appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on major events national institutions foreign nations and personages impacting Chinese foreign affairs along with the many institutions of the post World War II international order that the PRC has engaged especially since the 1970s This book is an excellent resource for students researchers and anyone wanting to know more about Chinese foreign affairs

**China's Compliance in Global Affairs** Gerald Chan,2006 The rise of China has thrown open many important and interesting questions Will a strong China behave responsibly in world affairs complying with the rules and norms of the international community Or will it defy universal standards and fight instead for its own interests and those of the developing world thereby challenging the global order dominated by the West The first of its kind to gauge in a comprehensive manner China s responsibility in world affairs this book scrutinizes China s compliance with international rules and norms embodied in the treaties that it has signed or ratified especially in the areas of trade arms control and non proliferation protection of the environment and human rights The book also examines Sino US relations as the US closely monitors China s compliance in world affairs It is that behavior which is largely determining the relative emphasis put on engagement with or containment of China by the West and by the US in particular

**BOOK JACKET China's New Industrialization Strategy** Y. Y. Kueh,2008-01-01 The book is a scholarly attempt to place the post Mao reforms in China in the context of developments in the Soviet Union and the Eastern European countries The essays written in different periods have mostly been thoroughly rewritten extended updated and refocused in the light of recent developments and demonstrate conclusively that Dengist reforms were not a clean break from the past as many ideologically blinkered Western Sinologists readily assume the reforms succeeded mainly because the post Mao regime had inherited a solid economic and political edifice created during the Mao era Radha Sinha Glasgow University UK Professor Kueh is one of the most original and prolific scholars in the field of communist Chinese studies In this collection we can read fully updated versions of many of his most important contributions to our understanding of the Chinese economy in both its domestic and foreign dimensions Most of these articles are now hard to get hold of and this new volume is therefore a most welcome addition to the literature Christopher Howe University of Sheffield UK Y Y Kueh in this stimulating collection of essays written over a career studying China s economy spanning more than three decades argues the proposition that there were important elements of continuity in the transition of economic thinking from Mao Zedong to Deng Xiaoping The argument is controversial but scholars and students alike will gain insight into the economic development strategies of China from reading these carefully reasoned studies They will challenge many of the common assumptions about the nature of China s transition from central planning to the market Dwight H Perkins Harvard University US Deng Xiaoping s economic strategy is widely regarded as a complete anathema to Mao s but this study strongly argues that without the material foundations laid by Mao it would have been very difficult for Deng to launch his reform and open door policy Deng basically shared Mao s aspirations and approach in pursuit of China s industrialization and this had in fact helped to condition him to

the successful gradualist methodology Deng lost patience at times and resorted to the big bang strategy only to fail miserably Taken together the book tells a new story about the economics of China s transition This is a highly thought provoking study blending institutional and convincing statistical analysis It will appeal to scholars and academics interested in the background and process of China emerging as an economic giant and especially to students of economics politics international business and globalization studies who aspire to an alternative non Left re interpretation of Mao s legacy

American-Vietnamese Relations in the Wake of War Cécile Menétrey-Monchau,2006-07-19 When the Vietnam War ended with the North Vietnamese capture of Saigon on April 30 1975 27 months after a cease fire had been signed in Paris the differences between the United States and Vietnam were far from being resolved Mutual bitterness regarding the war remained Newly unified Vietnam wanted normalization of relations and the subsequent economic reconstruction aid promised in the Paris Peace Accords Understandably wary of such diplomatic relations the United States requested information regarding soldiers listed as missing in action and assistance with the repatriation of military remains A series of misconceptions and misunderstandings as well as changes from a regional to a global U S foreign policy left both countries bereft of an easy solution This book describes the negotiations during the late Ford and early Carter administrations 1975 1979 and discusses the repercussions the diplomatic stalemate had on the domestic and international politics of the United States and Vietnam emphasizing the conflicting priorities and political goals of both countries at home and abroad This previously neglected period in United States Vietnam relations deals with issues such as Hanoi s constant exultation over the victory American denial of responsibility the division between the presidents public declarations and congressional policies and both sides use of the MIA issue Based primarily on recently declassified documents and former U S official Douglas Pike s uncensored collection the work also makes use of media press sources from America Vietnam Britain France and China Interviews with Vietnamese immigrants and former U S politicians provide insight unavailable in written histories

Appendices contain the February 1973 correspondence between President Nixon and the Prime Minister of the Democratic Republic of Vietnam six diplomatic notes from 1976 and a January 30 1979 letter from President Carter to Chinese Vice Premier Deng Xiaoping

**A Protestant Church in Communist China** John Craig William Keating,2012-02-16 Freedom of religious belief is guaranteed under the constitution of the People s Republic of China but the degree to which this freedom is able to be exercised remains a highly controversial issue Much scholarly attention has been given to persecuted underground groups such as Falun but one area that remains largely unexplored is the relationship between officially registered churches and the communist government This study investigates the history of one such official church Moore Memorial Church in Shanghai This church was founded by American Methodist missionaries By the time of the 1949 revolution it was the largest Protestant church in East Asia running seven day a week programs As a case study of one individual church operating from an historical rather than theological perspective this study examines the experience of people at this church against the

backdrop of the turbulent politics of the Mao and Deng eras It asks and seeks to answer questions such as were the people at the church pleased to see the foreign missionaries leave Were people forced to sign the so called Christian manifesto Once the church doors were closed in 1966 did worshipers go underground Why was this particular church especially chosen to be the first re opened in Shanghai in 1979 What explanations are there for its phenomenal growth since then A considerable proportion of the data for this study is drawn from Chinese language sources including interviews personal correspondence statistics internal church documents and archives many of which have never previously been published or accessed by foreign researchers The main focus of this study is on the period from 1949 to 1989 a period in which the church experienced many ups and downs restrictions and limitations The Mao era in particular remains one of the least understood and seldom written about periods in the history of Christianity in China This study therefore makes a significant contribution to our evolving understanding of the delicate balancing act between compromise co operation and compliance that categorizes church state relations in modern China

*Foreign Policy of India* K.R. Gupta & Vatsala Shukla,2009

[The Changing Face of China](#) John Gittings,2006-07-06 Where is China heading in the 21st century Can its Communist Party survive or is it being challenged by growing inequality and unrest Will the US and China cooperate or compete in a dangerous future Will China's economic boom be brought to a halt by environmental catastrophe In this highly readable account John Gittings provides the essential information to help answer these vital questions for the world In the 60 years since Mao Zedong took the road to victory China has undergone not one but two revolutions The first swept away the old corrupt society and sought to build a spotless new socialism behind closed doors the second since Mao's death has focused on an economic agenda which accepts the goals of global capitalism From Mao to the global market Gittings charts this complex but epic tale and concludes with some hard questions for the future

[China and India](#) Chris Ogden,2017-09-05 China and India are becoming increasingly influential powerful and prominent countries but what kind of states do their leaders and people wish them to become Will they act and behave like major Western entities or like something altogether different hence changing the very nature of international affairs And as the Asian twenty first century takes shape how will these dynamics affect the wider geopolitical landscape and the balance of power In this in depth study Chris Ogden evaluates the prospective impact of China and India upon the definition and nature of great power in the contemporary world Whilst many contend that they will rise in a similar way to current and previous great powers namely via traditional material economic and military measures Ogden explores the extent to which domestic political and cultural values as well as historical identities and perceptions are also central driving forces behind their common status ambitions and worldviews In so doing he offers a new and comprehensive analysis of these two countries past contemporary and future global significance in particular their shared status as the world's first such post imperial great powers

**Managing Sino-American Crises** Michael D. Swaine,2006 The Taiwan Strait The Korean War Vietnam The bombing of the Chinese Embassy in Belgrade The Sino U S aircraft collision incident U S China

relations have witnessed significant tensions and conflict over the years. Sensitivities and suspicions between Washington and Beijing have heightened as China's global power and influence have grown. Arguably, this new international order could increase the chances of a political military crisis or perhaps outright conflict between the two powers. *Managing Sino American Crises* brings together Chinese and American officials and participants in past confrontations as well as scholars from both countries to explore the changing features of crisis behavior and their implications for defusing future encounters. Using both conceptual analysis and historical case studies, this authoritative volume identifies specific problems and opportunities that will likely confront both countries in the future. The authors propose recommendations that will improve the effectiveness of U.S. China crisis management skills. **Studies in World Affairs** Ed. K.R. Gupta, 2006. In recent years, phenomenal developments have taken place in the field of international relations. With the disintegration of the Union of Soviet Socialist Republics (USSR), the bipolar world has given place to a unipolar world with the United States playing a dominating role in world affairs. The functioning of the United Nations Organisation has been under great strain, particularly because of the behaviour of the United States under the regime of George W. Bush. The United States has been flouting the provisions of the United Nations. A recent example of this is the unilateral action taken by it in Iraq in spite of strong opposition from the United Nations and many other countries. Likewise, it has recently brushed aside some good international agreements, for example on nuclear testing, world criminal court, land mines, etc. and dismissed some others, the Kyoto Convention on global warming, with an insouciance unbecoming to the world's biggest producer of greenhouse gases. Furthermore, it has been dominating the United Nations organisations like the World Bank, International Monetary Fund, International Finance Corporation, etc. The grant of loans by the financial international institutions is considerably influenced by the United States instead of being guided strictly by commercial and financial prudence. The United Nations undoubtedly and urgently needs to reform, resurrect and update. Moreover, the terrorist attack on September 11, 2001, on World Trade Center and Pentagon have shaken the idea of security and its military, economic, political and societal considerations. World over, question on military capability and security and state's ability to guarantee security and the citizen's right to it have come into focus as never before. In the interest of national survival, national security has become a prominent concern of states. The present book focuses on all contemporary issues of global significance. It aims at addressing
