Nonverbal Communication Across Disciplines: Narrative literature, theater, cinema, translation Fernando Poyatos, 2002 In a progressive and systematic approach to communication and always through an interdisciplinary and cross cultural perspective this first volume presents culture as an intricate grid of sensible and intelligible sign systems in space and time identifying the semiotic and interactive problems inherent in intercultural and subcultural communication according to verbal nonverbal cultural fluency The author lays out fascinating complexity of our direct and synesthesial sensory perception of people and artifactual and environmental elements and its audible and visual manifestations through our speaking face to then acknowledge the triple reality of discourse as verbal language paralinguistics kinesics which is applied through two realistic models a for a verbal nonverbal comprehensive transcription of interactive speech and b for the implementation of nonverbal communication in foreign language teaching The author presents his exhaustive model of nonverbal categories for a detailed analysis of normal or pathological behaviors in any interactive or noninteractive manifestation and based on all the previous material his equally exhaustive structural model for the study of conversational encounters which suggests many applications in different fields such as the intercultural and multisystem communication situation developed in simultaneous or consecutive interpreting 956 literary quotations from 103 authors and 194 works

Magic and Illusion in the Movies George Higham, 2024-11-13 From top hats to top secrets, this book is a celebration of illusion technology and mechanisms of trickery through a genre crossing selection of films. Heroes, villains, spies, con men, and madmen, magicians all have utilized complex constructs and trickery in thrilling cinematic adventures from the earliest days of cinema to the present. Current blockbusters such as *Spider-Man: Far from Home* and the *Mission Impossible* series feature amazing acts of deception, often appearing far-fetched that are in fact surprisingly close to today's technology. Along with the James Bond saga classics such as *The Wizard of Oz*, *Nightmare Alley*, and *The Sting* are joined by a host of other movies superficially seeming to be very different yet proving there is more than meets the eye.

Black and White Cinema Wheeler Winston Dixon, 2015-11-06 From the glossy monochrome of the classic Hollywood romance to the gritty greyscale of the gangster picture, to film noir's moody interplay of light and shadow, black and white cinematography has been used to create a remarkably wide array of tones. Yet today, with black and white film stock nearly impossible to find, these cinematographic techniques are virtually extinct, and filmgoers' appreciation of them is similarly waning. *Black and White Cinema* is the first study to consider the use of black and white as an art form in its own right, providing a comprehensive and global overview of the era when it flourished from the 1900s to the 1960s. Acclaimed film scholar Wheeler Winston Dixon introduces us to the masters of this art, discussing the signature styles and technical innovations of award-winning cinematographers like James Wong Howe, Gregg Toland, Freddie Francis, and Sven Nykvist. Giving us a unique glimpse behind the scenes, Dixon also reveals the creative teams from lighting technicians to matte

painters whose work profoundly shaped the look of black and white cinema More than just a study of film history this book is a rallying cry meant to inspire a love for the artistry of black and white film so that we might work to preserve this important part of our cinematic heritage Lavishly illustrated with more than forty on the set stills *Black and White Cinema* provides a vivid and illuminating look at a creatively vital era

Film Adaptation and Its Discontents Thomas Leitch, 2007-06-15 Most books on film adaptation the relation between films and their literary sources focus on a series of close one to one comparisons between specific films and canonical novels This volume identifies and investigates a far wider array of problems posed by the process of adaptation Beginning with an examination of why adaptation study has so often supported the institution of literature rather than fostering the practice of literacy Thomas Leitch considers how the creators of short silent films attempted to give them the weight of literature what sorts of fidelity are possible in an adaptation of sacred scripture what it means for an adaptation to pose as an introduction to rather than a transcription of a literary classic and why and how some films have sought impossibly close fidelity to their sources After examining the surprisingly divergent fidelity claims made by three different kinds of canonical adaptations Leitch's analysis moves beyond literary sources to consider why a small number of adapters have risen to the status of auteurs and how illustrated books comic strips video games and true stories have been adapted to the screen The range of films studied from silent Shakespeare to Sherlock Holmes to *The Lord of the Rings* is as broad as the problems that come under review

American Disaster Movies of the 1970s Scott Freer, 2023-10-19 American Disaster Movies of the 1970s is the first scholarly book dedicated to the disaster cycle that dominated American cinema and television in the 1970s Through examining films such as *Airport* 1970 *The Poseidon Adventure* 1972 *Two Minute Warning* 1976 and *The Swarm* 1978 alongside their historical contexts and American contemporaneous trends the disaster cycle is treated as a time bound phenomenon This book further contextualises the cycle by drawing on the longer cultural history of modernist reactions to modern anxieties including the widespread dependence on technology and corporate power Each chapter considers cinematic precursors such as the ark movie and contemporaneous trends such as New Hollywood vigilante and blaxploitation films as well as the immediate American context the end of the civil rights and countercultural era the Watergate crisis and the defeat in Vietnam As Scott Freer argues the disaster movie is a modern demotic form of tragedy that satisfies a taste for the macabre It is also an aesthetic means for processing painful truths and many of the dramatized themes anticipate present day monstrosities of modernity
