Sir Francis Drake's Secret Voyage to the Northwest Coast of America, AD 1579 Samuel Bawlf, 2001 **Four Travel Journals / The Americas, Antarctica and Africa / 1775-1874** R. J. Campbell, Herbert K. Beals, Ann Savours, Anita McConnell, Roy Bridges, 2017-05-15 This volume offers annotated texts with biographical and historical introductions of four previously unpublished travel journals from the period 1775 1874 The first of these is the journal of a participant in a Spanish expedition sent from Mexico to explore the north west coast of America From the outset difficulties plagued the voyage Bodega s ship a small schooner named Sonora was not designed for open ocean voyaging A landing party was attacked and killed midway into the voyage the Sonora became separated from her flagship and later she was nearly capsized by a massive wave Bodega s journal records the voyage s travails hardships discoveries and eventual return Next comes the journal of Commander Stokes who served in command of HMS Beagle under Captain P P King during the survey of the Straits of Magellan in 1827 This is an account of a detached operation in very difficult weather conditions in the western part of the strait It is introduced by remarks on the expedition and the hydrographic history of the strait from its discovery to the inception of the survey and supplemented by remarks from Captain King s account and also that of the clerk Macdouall The third text is the journal of a young midshipman in HMS Chanticleer a small vessel commanded by Henry Foster RN who had recently been elected a Fellow of the Royal Society for his scientific work in the Arctic The voyage of 1828 31 was to make observations in the South Atlantic to determine the shape of the Earth and to ascertain the longitudes of a number of ports Kay s lively diary describes the Chanticleer s encounters with warships of the Brazilian navy largely manned by Englishmen He records his struggle to take observations at Deception Island during gales and snowstorms and near Cape Horn in fierce squalls and constant chilling rain nevertheless remaining cheerful in the company of his fellow midshipmen The final piece is the diary of Jacob Wainwright **Francis Drake on the Northwest Coast of America in the Year 1579** George Davidson, 1908 **The Secret Voyage of Sir Francis Drake** Samuel Bawlf, 2003-05-01 Uses maps of the period to show how Drake sailed all the way to Alaska in search of a western entrance to the fabled Northwest Passage planning to establish a British colony in the New World Francis Drake , 1908 *Cruising World* , 1999-01 Francis Drake on the Northwest Coast of America in the Year 1579 George Davidson, 1908 **Thunder Go North** Melissa C. Darby, 2019 This manuscript is a fresh look at determining the location of the 1579 landing site of Sir Francis Drake on the northwest coast of North America to repair his ship the Golden Hind This landing location has long been debated and was claimed by California especially with the finding of the brass plate thought to be an artifact of Drake s landing located on a hill overlooking San Francisco Bay Although the brass plate was supposedly authenticated in 1938 by 1977 it was proven to be a hoax yet no re examination of the landing question or associated data was completed Provided by publisher **Francis Drake on the Northwest Coast of America in the Year 1579; the Golden Hinde Did Not Anchor in the Bay of San Francisco**

George Davidson,2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1908 edition Excerpt plaque Mr Christy quotes differently in his foot note page 45 We note the following conditions on this Silver Map The two hemispheres are on a stereographic projection on the plane of a meridian The eastern hemisphere contains Europe Asia Africa and the Netherlands Indies so there is but little of the North Atlantic and Pacific Oceans thereon The western hemisphere embraces North and South America with nearly all the Pacific Ocean north and south The engraver certainly had a special reason for this apportionment The Terra Australis Nvndvm cognita occupies the southern one third of each hemisphere On the eastern hemisphere the prime meridian is evidently Ferro Island and the longitudes are reckoned and numbered on the Antarctic Circle eastwardly by ten degree meridians divided in half at the equator This prime meridian is the western limit of the hemisphere The western hemisphere therefore contains North and South America and nearly all the Pacific and the meridians 190 and 200 only are numbered The parallels of latitude are given for each ten degrees and subdivided to single degrees on the circumference where they are of no use The plate bears no inscription or indication of any kind showing the name of the maker or the date when it was made page 2 Nor is there any proof that it was prepared in commemoration of Drake s return from his famous voyage This paper by Mr Christy is based solely upon the assumption that the Silver Map was made for the purpose he has indicated The only suggestion for such a hypothesis is that it has part of the track of Drake represented by a dotted line and that no other track is laid down page 14 That of course is a marked feature and

Sir Francis Drake on the California Coast, 1579 ,1906 **Commander Francis Drake & the West Coast Mysteries** Gunnar Thompson,2010-09-01 Discovery of Drake s lost navigational chart finally reveals secrets behind his voyage to America s West Coast in 1579 The secret location of Drake s colony New Albion is finally identified This was the first British colony in America and it marks the beginning of the British Empire At last we know the reason for an ongoing feud between Queen Elizabeth and Sir Francis He wanted desperately to rescue the shipmates that he left behind in New Albion Drake used a shipboard clock to map the West Coast This is the first map of America that was made using a chronometer thus Drake s map is accurate to within 15 degrees of the true longitude Drake was not just a pirate as most historians assume He was a naturalist ethnographer and geographer Drake s map and his new ship design opened the way for the Dutch East India Company
