Sir George Goldie and the Making of Nigeria John E. Flint,1960      Sir George Goldie and the Making of Nigeria John Edgar Flint,1966      *Sir George Goldie* Dorothy Wellesley,1934      Lagos Kaye Whiteman,2013-10-21 Lagos is one of the fastest growing cities in the world expected in some projections to have a population of 25 million by 2025 This will make it the biggest metropolis in sub Saharan Africa and possibly the world s third largest city This phenomenal and continuing growth gives it a heady turbulence especially as it only took on the form of a coherent urban entity in the eighteenth century After Nigeria s independence Lagos remained both trading hub and for thirty years a federal capital and political vortex Now its driving sense of can do its outreach and vitality make it a fulcrum and a channel for commercial and cultural talent Kaye Whiteman explores a city that has constantly re invented itself from the first settlement on an uninhabited island to the creation of the port in the early years of the twentieth century Lagos is still defined by its curious network of islands and lagoons where erosion and reclamation lead to a permanently shifting topography but history has thrust it into the role of a burgeoning mega city overcoming all nature s obstacles The city s melting pot has fertilised a unique literary and artistic flowering that is only now beginning to be appreciated by a world that has only seen slums and chaos COLONIAL CITY Portuguese influences the 1861 Treaty of Cession and the British colonialists architectural traces schools and government buildings the move towards independence CITY OF ENTREPRENEURS trading through the centuries Sierra Leoneans and Brazilians traditional markets and modern malls the Central Business District THE CITY OF WORDS AND MUSIC a counterpoint to the alleged philistinism of its businessmen the views of writers Wole Soyinka and Chinua Achebe artist and sculptor Ben Enwonwu the musical genius Fela Kuti      **Accessions List** United States. Department of State. Library Division,1960-07      A History of Genocide in Africa Timothy J. Stapleton,2017-04-17 Based on a series of detailed case studies this book presents the history of genocide in Africa within the specific context of African history examining conflicts in countries such as Burundi Democratic Republic of Congo Namibia Rwanda and Sudan Why has Africa been the subject of so many accusations related to genocide Indeed the number of such allegations related to Africa has increased dramatically over the past 15 years Popular racist mythology might suggest that Africans belong to tribes that are inherently antagonistic towards each other and therefore engage in tribal warfare which cannot be rationally explained This concept is wrong as Timothy J Stapleton explains in A History of Genocide in Africa the many conflicts that have plagued post colonial Africa have had very logical explanations and very few of these instances of African warring can be said to have resulted in genocide Authored by an expert historian of Africa this book examines the history of six African countries Namibia Rwanda Burundi Democratic Republic of Congo Sudan and Nigeria in which the language of genocide has been mobilized to describe episodes of tragic mass violence It seeks to place genocide within the context of African history acknowledging the few instances where the international legal term genocide has been applied appropriately to episodes of mass violence in African history

and identifying the many other cases where it has not and instead the term has been used in a cynical manipulation to gain some political advantage Readers will come to understand how to a large extent genocide accusations related to post colonial Africa have often served to prolong wars and cause greater loss of life The book also clarifies how in areas of Africa where genocides have actually occurred there appears to have been a common history of the imposition of racial ideologies and hierarchies during the colonial era which when combined with other factors such as the local geography demography religion and or economics resulted in tragic and appalling outcomes
