the Text is a book about reciting and recounting about how we know and what we know when we read a lyrical text crafted in prose but sounding like something else instead Brater ranges across all of Beckett s work quoting from it liberally and makes connections mainly with other writers but also with details drawn from the whole Western cultural heritage The only book that deals thoroughly with Beckett s complete late fiction Brater s study opens to a wide literary audience the difficult and elliptical nature of Beckett s mature prose style For those readers who find Beckett s late fiction impossible to follow let alone describe this book will be an authoritative and persuasive guide providing recognition insight and accessibility
