

A woman with long, wavy hair is captured in a dynamic pose on a beach. She is wearing a long, flowing dress with a mix of green, orange, and white colors. The dress has a long, sheer train that extends behind her. She is looking down and to the side, with her arms slightly raised. The background shows a beach with waves and a cloudy sky. The overall mood is ethereal and artistic.

 Slavoj Žižek, 1998-04-08 The Cartesian cogito the principle articulated by Descartes that I think therefore I am is often hailed as the precursor of modern science At the same time the cogito's agent the ego is sometimes feared as the agency of manipulative domination responsible for all present woes from patriarchal oppression to ecological catastrophes Without psychoanalyzing philosophy Cogito and the Unconscious explores the vicissitudes of the cogito and shows that psychoanalyses can render visible a constitutive madness within modern philosophy the point at which I think therefore I am becomes obsessional neurosis characterized by If I stop thinking I will cease to exist Noting that for Lacan the Cartesian construct is the same as the Freudian subject of the unconscious the contributors follow Lacan's plea for a psychoanalytic return to the cogito Along the path of this return they examine the ethical attitude that befits modern subjectivity the inherent sexualization of modern subjectivity the impasse in which the Cartesian project becomes involved given the enigmatic status of the human body and the Cartesian subject's confrontation with its modern critics including Althusser Bataille and Dennett In a style that has become familiar to Žižek's readers these essays bring together a strict conceptual analysis and an approach to a wide range of cultural and ideological phenomena from the sadist paradoxes of Kant's moral philosophy to the universe of Ayn Rand's novels from the question Which if any is the sex of the cogito to the defense of the cogito against the onslaught of cognitive sciences Challenging us to reconsider fundamental notions of human consciousness and modern subjectivity this is a book whose very Lacanian orthodoxy makes it irreverently transgressive of predominant theoretical paradigms Cogito and the Unconscious will appeal to readers interested in philosophy psychoanalysis cultural studies and theories of ideology Contributors Miran Božović Mladen Dolar Alain Grosrichard Marc de Kessel Robert Pfaller Renata Salecl Slavoj Žižek Alenka Zupancic

and Roman philosophy      Thresholds: Rethinking Spirituality Through Music Marcel Cobussen, 2017-07-05 In Thresholds Marcel Cobussen rethinks the relationship between music and spirituality The point of departure is the current movement within contemporary classical music known as New Spiritual Music with as its main representatives Arvo P. John Tavener and Giya Kancheli In almost all respects the musical principles of the new spiritual music seem to be diametrically opposed to those of modernism repetition and rest versus development and progress tradition and familiarity versus innovation and experiment communication versus individualism and conceptualism tonality versus atonality and so on As such this

movement is often considered as part of the much larger complex called postmodernism. Joining in with ideas on spirituality as presented by Michel de Certeau and Mark C Taylor, Cobussen deconstructs the classification of the spiritual dimensions of music as described above. Thresholds presents an idea of spirituality in and through music that counters strategies of exclusion and mastering of alterity and connects it to wandering, erring and roving. Using the philosophy of Martin Heidegger, Georges Bataille, Jean-François Lyotard, Jacques Derrida and others and analysing the music of John Coltrane, the mythical Sirens, Arvo Pärt and The Eagles to mention a few, Cobussen regards spirituality as a non-concept that escapes categorization, classification and linguistic descriptions. Spirituality is a topological, non-discursive and a manifestation of otherness. And it is precisely music or better listening to music that induces these thoughts by carefully encountering, analysing and evaluating certain examples from classical, jazz, pop and world music. It is possible to detach spirituality from concepts of otherworldliness and transcendentalism. Thresholds opens a space in which spirituality can be connected to music that is not commonly considered in this light, thereby enriching the ways of approaching and discussing music.

In order      *Early Twentieth-century Continental Philosophy* Leonard Lawlor, 2012. *Early Twentieth Century Continental Philosophy* elaborates the basic project of contemporary continental philosophy which culminates in a movement toward the outside. Leonard Lawlor interprets key texts by major figures in the continental tradition including Bergson, Foucault, Freud, Heidegger, Husserl and Merleau-Ponty to develop the broad sweep of the aims of continental philosophy. Lawlor discusses major theoretical trends in the work of these philosophers: immanence, difference, multiplicity and the overcoming of metaphysics. His conception of continental philosophy as a unified project enables Lawlor to think beyond its European origins and envision a global sphere of philosophical inquiry that will revitalize the field.

*On Literature* J. Hillis Miller, 2003-09-02. Debates rage over what kind of literature we should read, what is good and bad literature, and whether in the global digital age literature even has a future. But what exactly is literature? Why should we read literature? How do we read literature? These are some of the important questions J. Hillis Miller answers in this beautifully written and passionate book. He begins by asking what literature is, arguing that the answer lies in literature's ability to create an imaginary world simply with words. *On Literature* also asks the crucial question of why literature has such authority over us. Returning to Plato, Aristotle and the Bible, Miller argues we should continue to read literature because it is part of our basic human need to create imaginary worlds and to have stories. Above all, *On Literature* is a plea that we continue to read and care about literature.
