De Groot, C Peniston-Bird, 2014-07-30 The question of women's role in the military is extremely topical *A Woman and a Soldier* covers the experiences of women in the military from the late mediaeval period to the present day Written in two volumes this comprehensive guide covers a wide range of wars The Thirty Years War the French and Indian Wars in Northern America the Anglo Boer War the First and Second World Wars the Long March in China and the Vietnam War There are also thematic chapters including studies of terrorism and contemporary military service Taking a multidisciplinary approach historical anthropological and cultural the book shows the variety of arguments used to support or deny women's military service and the combat taboo In the process the book challenges preconceived notions about women's integration in the military and builds a picture of the ideological and practical issues surrounding women soldiers *The Social Railway and Its Workers in Europe's Modern Era, 1880-2023* David Welsh, 2025-06-26 This thematically arranged book examines the evolution of rail transport and a number of railway workforces across Europe in the modern era from around 1880 to 2023 Each chapter explores how within the context of a social railway rail workers developed distinct national and international perspectives on the nature of their work and their roles in societies and states David Welsh convincingly argues that workers formed a raft of entirely new and enduring organisations such as trade unions that in turn became ramparts of hope Welsh goes on to consider how the insurgent character of these organisations produced moments of fury during tumultuous periods in the 20th century *The Social Railway and its Workers in Europe's Modern Era 1880 2023* explores the national and European contexts in which both characteristics came to the fore including the ecology of fossil

fuel technology coal and oil Above all it argues that social economic and political forces are not simply external scene shifting but integral to the history of railway systems The book examines the cultural construction of European railways through literature art and other forms of writing as well as recent oral history It also includes a detailed investigation of the role played by nationalisation and public ownership in Europe In the context of neoliberalism and globalization it proposes a 21st century programme for the social railway
