Sisyphus Or The Limits Of Education:

Sisyphus Siegfried Bernfeld,1973-01-01 **Sisyphus or The Limits of Education** Siegfried Bernfeld,1973

Sisyphus : Or, The Limits of Education J. H. Karchmer,1973 Sisyphus Or The Limits of Education Siegfried Bernfeld,1967 Sisyphus Siegfried Bernfeld,1973 Albert Camus and Education Aidan Hobson,2017-03-22 This book continues the story about education and the absurd Its specific focus is on the work of Albert Camus It tries to summarise the ways in which his writing has already inspired and influenced educational thinking and practice and it offers a new set of educational interpretations of six of his major works These set out the exciting challenge about how we might think about the purposes and practices of education in the future how to talk about these plan and deliver Using the work of Albert Camus in this way is an attempt to bring him and his ideas closer to educational discussions This is a deliberate attempt to show the synergy between some of his major concepts and those that are already cornerstones of educational discourses Read from an educational perspective the work of Albert Camus also provides guidance and invigorates the imagination as to how education can respond to those increasingly complex existential crises it finds itself connected to For educational people interested in these questions this book will hopefully motivate a re reading of Camus and a brave new lens on practice

International Handbook of Jewish Education Helena Miller,Lisa D. Grant,Alex Pomson,2011-04-02 The International Handbook of Jewish Education a two volume publication brings together scholars and practitioners engaged in the field of Jewish Education and its cognate fields world wide Their submissions make a significant contribution to our knowledge of the field of Jewish Education as we start the second decade of the 21st century The Handbook is divided broadly into four main sections Vision and Practice focusing on issues of philosophy identity and planning the big issues of Jewish Education Teaching and Learning focusing on areas of curriculum and engagement Applications focusing on the ways that Jewish Education is transmitted in particular contexts both formal and informal for children and adults Geographical focusing on historical demographic social and other issues that are specific to a region or where an issue or range of issues can be compared and contrasted between two or more locations This comprehensive collection of articles providing high quality content constitutes a definitive statement on the state of Jewish Education world wide as well as through a wide variety of lenses and contexts It is written in a style that is accessible to a global community of academics and professionals

Diasporic Philosophy and Counter-Education I. Gur-Ze'ev,2011-08-05 Diasporic Philosophy and Counter Education addresses the challenges inflicted by the celebrated new progressivism It confronts the current omnipotent progressive anti humanistic fire and its triumphant anti Western redemptive crusade at all levels and dimensions of life under the post metaphysical sky In this book Diasporic counter education does not surrender to the celebrated temptations of new age nomadism as an alternative to the postmodern pleasure machine s promise It attempts to reach beyond the total war against the Jewish spirit and its manifestation in Western oppressive identity It refuses any version of the continuum radical or

conservative self indulgence as well as current nihilist pragmatic quests for self forgetfulness Diasporic awakening is a potentially universal and enduring erotic art of a never to be concluded self constitution and re positioning The aim of this book is for it to become part of a new beginning in the face of the new global culture of mega speeds the exile of the humanist killer of God the deconstruction of pre conditions for transcendence and the growing probability of bringing to an End of all life on earth This book seeks to become a waking call for improvisational co poiesis a counter education that will groom us to become more courageous in responding to the invitation of hope making humankind richer in the realization of our response ability to Love of Life

Understanding the School Curriculum Alex Moore, 2014-08-13 At a time of rapid social change and numerous policy initiatives there is a need to question the nature and function of school curricula and the purposes of formal public education Comparing curriculum developments around the globe Understanding the School Curriculum draws on a range of educational philosophical and sociological theories to examine the question What is a curriculum for In considering different answers to this fundamental question it explores a range of topical issues and debates including tensions and dynamics within curriculum policy The implications of uncertainty and rapid social change for curriculum development the positive and negative influence of free market ideologies on public education the impact of globalization and digital technologies arguments for and against common core curricula and state control It examines the possibility of a school curriculum that is not shaped and monitored by dominant interests but that has as its founding principles the promotion of responsibility responsiveness a love of learning and a sense of wonder and respect for the natural and social world Understanding the School Curriculum is for all students following undergraduate and Masters courses in curriculum public policy and education related subjects It is also for all training and practising teachers who wish to combine a deeper understanding of major curriculum issues with a critical understanding of the ways in which ideologies impact on formal state education and to consider ways of producing school curricula that are appropriate to the times we live in

Remembrance - Responsibility - Reconciliation Lothar Wigger, Marie Dirnberger, 2022-04-15 Germany and Japan have taken different ways of dealing with the past of the traumatic events of World War II and their own role Even after 75 years the battles for remembrance are not over in both countries Questions about responsibility about the educational consequences of history and about possibilities for reconciliation with former enemies are constantly being asked anew and require new answers The contributions in the book address these questions from a Japanese and German perspective on the basis of empirical and historical research combining historical educational and philosophical approaches and opening up new perspectives for academic research as well as for practical educational work by comparing the cultures of remembrance
