*Theory in Social and Cultural Anthropology* R. Jon McGee, Richard L. Warms, 2013-08-28 Social and cultural anthropology and archaeology are rich subjects with deep connections in the social and physical sciences Over the past 150 years the subject matter and different theoretical perspectives have expanded so greatly that no single individual can command all of it Consequently both advanced students and professionals may be confronted with theoretical positions and names of theorists with whom they are only partially familiar if they have heard of them at all Students in particular are likely to turn to the web to find quick background information on theorists and theories However most web based information is inaccurate and or lacks depth Students and professionals need a source to provide a quick overview of a particular theory and theorist with just the basics the who what where how and why if you will In response SAGE Reference plans to publish the two volume *Theory in Social and Cultural Anthropology An Encyclopedia Features Benefits* Two volumes containing approximately 335 signed entries provide users with the most authoritative and thorough reference resource available on anthropology theory both in terms of breadth and depth of coverage To ease navigation between and among related entries a Reader's Guide groups entries thematically and each entry is followed by Cross References In the electronic version the Reader's Guide combines with the Cross References and a detailed Index to provide robust search and browse capabilities An appendix with a Chronology of Anthropology Theory allows students to easily chart directions and trends in thought and theory from early times to the present Suggestions for Further Reading at the end of each entry and a Master Bibliography at the end guide readers to sources for more detailed research and discussion

**Mapping Feminist Anthropology in the Twenty-First Century** Ellen Lewin, Leni M. Silverstein, 2016-07-07 Feminist anthropology emerged in the 1970s as a much needed corrective to the discipline's androcentric biases Far from being a marginalized subfield it has been at the forefront of developments that have revolutionized not only anthropology but also a host of other disciplines This landmark collection of essays provides a contemporary overview of feminist anthropology's historical and theoretical origins the transformations it has undergone and the vital contributions it continues to make to cutting edge scholarship *Mapping Feminist Anthropology in the Twenty First Century* brings together a variety of contributors giving a voice to both younger

researchers and pioneering scholars who offer insider perspectives on the field's foundational moments. Some chapters reveal how the rise of feminist anthropology shaped and was shaped by the emergence of fields like women's studies, Black and Latina studies, and LGBTQ studies. Others consider how feminist anthropologists are helping to frame the direction of developing disciplines like masculinity studies, affect theory, and science and technology studies. Spanning the globe from India to Canada, from Vietnam to Peru, *Mapping Feminist Anthropology in the Twenty-First Century* reveals the important role that feminist anthropologists have played in worldwide campaigns against human rights abuses, domestic violence, and environmental degradation. It also celebrates the work they have done closer to home, helping to explode the developed world's preconceptions about sex, gender, and sexuality. *Gender and Women's Studies, Second Edition* Margaret Hobbs, Carla Rice, 2018-05-03. Now in its second edition, *Gender and Women's Studies: Critical Terrain* provides students with an essential introduction to key issues, approaches, and concerns of the field. The multidisciplinary focus and the unique combination of scholarly articles, interviews, fact sheets, reports, blog posts, poetry, artwork, and personal narratives reflect the vitality of the field and keep the collection engaging and varied. **Gender and Economics in Muslim Communities** Ebru Kongar, Jennifer C. Olmsted, Elora Shehabuddin, 2017-08-25. Bringing together feminist analyses of economic processes and outcomes with feminist critiques of Orientalism, this book examines the diverse economic realities facing women in a range of Muslim communities. This approach pays special attention to the role of Islam in economic analyses of gender equality and women's well-being in Muslim communities while at the same time challenging biased and inaccurate accounts that essentialize Islam. Nuanced case studies conducted in Bangladesh, Iran, Israel, Nigeria, and Turkey illustrate the historical and institutional diversity of Muslim communities and draw vivid pictures of the everyday economic lives of Muslim women in these communities. These studies are complemented by quantitative analyses that extend beyond inserting Islam as a dummy variable. The contributions represent a wide range of disciplines, including anthropology, economics, gender studies, political science, psychology, and sociology. By placing critiques of Orientalist scholarship in direct dialogue with scholarship on economic

development in Muslim contexts this diverse collection illustrates how different methods and frameworks can work together to provide a better understanding of gender equality and women's well-being in Muslim contexts. In doing so, the authors aim to facilitate conversations among feminist scholars across disciplines in order to provide a more nuanced picture of the situation facing women in Muslim communities. This book was originally published as a special issue of *Feminist Economics*.

*Gender Matters* Alejandro Lugo, Bill Maurer, 2000 The first reexamination of a key theorist of anthropology. **Gender Ironies of Nationalism** Tamar Mayer, 2012-10-12 This book provides a unique social science reading on the construction of nation, gender, and sexuality and on the interactions among them. It includes international case studies from Indonesia, Ireland, former Yugoslavia, Liberia, Sri Lanka, Australia, the USA, Turkey, China, India, and the Caribbean. The contributors offer both the masculine and feminine perspective, exposing how nations are comprised of sexed bodies and exploring the gender ironies of nationalism and how sexuality plays a key role in nation building and in sustaining national identity. The contributors conclude that control over access to the benefits of belonging to the nation is invariably gendered; nationalism becomes the language through which sexual control and repression is justified; masculine prowess is expressed and exercised. Whilst it is men who claim the prerogatives of nation and nation building, it is for the most part women who actually accept the obligation of nation and nation building.

A Courtship After Marriage Jennifer S. Hirsch, 2003-08 Since 1960, the fertility rate in Mexico has dropped to about 2.6 children per woman. Such changes are part of a transformation explored in this ethnographic study of generational and migration-related redefinitions of gender, marriage, and sexuality in rural Mexico and among Mexicans in Atlanta.

Traumatic States Nia Parson, 2013-04-26 The end of the Pinochet regime in Chile saw the emergence of an organized feminist movement that influenced legal and social responses to gender-based violence and with it new laws and avenues for reporting violence that never before existed. What emerged were grassroots women's rights organizations challenging and engaging the government and NGOs to confront long-ignored problems in responding to marginalized victims. In *Traumatic States*, anthropologist Nia Parson explores the development of methods of care and recovery from domestic violence. She interviews and contextualizes the lives of numerous individuals who have confronted these acts as victims, authorities, and activists. Ultimately, *Traumatic States* argues that facing the challenges of healing both body and mind and addressing the fundamental inequalities that make those challenges even more formidable are part of the same battle.
