,1917 **Practitioner's Credo** ,2009-04-01 This book is not about me nor any particular practice It is the result of 34 years
of observing studying and experiencing the criteria that determines a successful practice It is not about mechanics or
methodology It is not about maximizing reimbursement or accelerating collections If your interest is in how to deal with cash
flow increasing the revenue opportunities in a declining reimbursement environment and insuring that your income is
optimized this book is not for you On the other hand if your interest is in how to make your practice successful this book will
address the ten basic tenets to doing just that A successful practice is never measured in terms of number of patients or
income generated The only real criteria for determining success is how the practice is perceived by patients by colleagues
within the profession by the staff and by the team leader Since my experiences as a professional lie exclusively in the domain
of Health Sciences this book shall refer to patrons of practices as patients In many instances the term client could be
interchanged for patients when considering professions other than health related i e Law Accounting But for our specific
interests and purposes the book shall address health care practices and their relationship with patients and each other
