## USING EYEWITNESS TESTIMONY IN FORENSICS

Eyewitness testimony has long been a staple of forensic investigations. When used properly, it can provide important details about a crime that may not be available through other means. For example, a witness may be able to describe the appearance of a suspect, the make and model of a vehicle involved in a crime, or the location and time of an incident.

To ensure that eyewitness testimony is as reliable as possible, forensic investigators
