Museums in Postcolonial Europe Dominic Thomas,2013-09-13 The history of European nation building and identity formation is inextricably connected with museums and the role they play in displaying the acquired spoils and glorious symbols of geopolitical power in order to mobilize public support for expansionist ventures This book examines the contemporary debate surrounding the museum in postcolonial Europe Although there is no consensus on the European colonial experience the process of decolonization in Europe has involved an examination of the museum s place and ethnic minorities and immigrants

have insisted upon improved representation in the genealogies of European nation states. Museological practices have been subjected to greater scrutiny in light of these political and social transformations. In addition to the refurbishment and restructuring of colonial era museums, new spaces have also been inaugurated to highlight the contemporary importance of museums in postcolonial Europe, as well as the significance of incorporating the perspective of postcolonial European populations into these spaces. This book includes contributions from leading experts in their fields and represents a comparative trans-historical and transcolonial examination which contextualises and reinterprets the legacies and experiences of European museums. This book was published as a special issue of *Africa and Black Diaspora: An International Journal*.

Slavery, Geography and Empire in Nineteenth-Century Marine Landscapes of Montreal and Jamaica Charmaine A. Nelson, 2017-07-05. *Slavery, Geography and Empire in Nineteenth-Century Marine Landscapes of Montreal and Jamaica* is among the first Slavery Studies books and the first in Art History to juxtapose temperate and tropical slavery. Charmaine A. Nelson explores the central role of geography and its racialized representation as landscape art in imperial conquest. One could easily assume that nineteenth-century Montreal and Jamaica were worlds apart, but through her astute examination of marine landscape art, the author re-connects these two significant British island colonies: sites of colonial ports with profound economic and military value. Through an analysis of prints, illustrated travel books, and maps, the author exposes the fallacy of their disconnection, arguing instead that the separation of these colonies was a retroactive fabrication designed in part to rid Canada of its deeply colonial history as an integral part of Britain's global trading network, which enriched the motherland through extensive trade in crops produced by enslaved workers on tropical plantations. The first study to explore James Hakewill's Jamaican landscapes and William Clark's Antiguan genre studies in depth, it also examines the Montreal landscapes of artists including Thomas Davies, Robert Sproule, George Heriot, and James Duncan. Breaking new ground, Nelson reveals how gender and race mediated the aesthetic and scientific access of such mainly white male artists. She analyzes this moment of deep political crisis for British slave owners between the end of the slave trade in 1807 and complete abolition in 1833, who employed visual culture to imagine spaces free of conflict and to alleviate their pervasive anxiety about slave resistance. Nelson explores how vision and cartographic knowledge translated into authority, which allowed colonizers to civilize the terrains of the so-called New World while belying the oppression of slavery and indigenous displacement.

The suppression of the Atlantic slave trade Robert Burroughs, Richard Huzzey, 2017-03-01. The suppression of the Atlantic slave trade has puzzled nineteenth-century contemporaries and historians since, as the British Empire turned naval power and moral outrage against a branch of commerce it had done so much to promote. The assembled authors bridge the gap between ship and shore to reveal the motives, effects, and legacies of this campaign. As the first academic history of Britain's campaign to suppress the Atlantic slave trade in more than thirty years, the book gathers experts in history, literature, historical geography, museum studies, and the history of medicine to analyse naval suppression in light of recent work on slavery and

empire Three sections reveal the policies experiences and representations of slave trade suppression from the perspectives of metropolitan Britons liberated Africans black sailors colonialists and naval officers [Affect and Abolition in the Anglo-Atlantic, 1770-1830](#) Stephen Ahern,2016-12-05 At the turn of the nineteenth century writers arguing for the abolition of the slave trade and the emancipation of those in bondage used the language of sentiment and the political ideals of the Enlightenment to make their case This collection investigates the rhetorical features and political complexities of the culture of sentimentality as it grappled with the material realities of transatlantic slavery Are the politics of sentimental representation progressive or conservative What dynamics are in play at the site of suffering What is the relationship of the spectator to the spectacle of the body in pain The contributors take up these and related questions in essays that examine poetry plays petitions treatises and life writing that engaged with contemporary debates about abolition **We Shall Be No More** Richard Bell,2012-03-20 Though suicide is an individual act Richard Bell reveals its broad social implications in early America From Revolution to Reconstruction everyone parents newspapermen ministers and abolitionists alike debated the meaning of suicide as a portent of danger or of possibility in a new nation struggling to define itself and its power

by both English and American antislavery promoters Reading was equated with knowledge and knowledge was equated with moral responsibility and therefore reading about the abominations of slavery became an act of emotional personal transformation Children were thus turned into powerful agents of political change and potential activists to spread the abolitionist message Invited to comply with a higher law that entailed the breaking of their nation's edicts they were morally rewarded by the Christian God and approvingly applauded by their elders for their violation of these same American regulations These texts enclosed immeasurable value for young nineteenth century Americans to fulfill a more democratic and egalitarian role in their future Undoubtedly abolitionist writings for children took away American children's innocence and transformed them into juvenile abolitionists and empowered compassionate citizens

The American Slave Narrative and the Victorian Novel Julia Sun-Joo Lee, 2010-04-09 This title explores the influence of the American slave narrative on the Victorian novel The book argues that Charlotte Bronte Charles Dickens and Robert Louis Stevenson integrated into their works elements of the slave narrative

The Oxford Handbook of the African American Slave Narrative John Ernest, 2014 Given the rise of new interdisciplinary and methodological approaches to African American and Black Atlantic studies The Oxford Handbook of the African American Slave Narrative will offer a fresh wide ranging assessment of this major American literary genre The volume will begin with articles that consider the fundamental concerns of gender sexuality community and the Christian ethos of suffering and redemption that are central to any understanding of slave narratives The chapters that follow will interrogate the various agendas behind the production of both pre and post Emancipation narratives and take up the various interpretive problems they pose Strategic omissions and veiled gestures were often necessary in these life accounts as they revealed disturbing too painful truths far beyond what white audiences were prepared to hear While touching upon the familiar canonical autobiographies of Frederick Douglass and Harriet Jacobs the Handbook will pay more attention to the under studied narratives of Josiah Henson Sojourner Truth William Grimes Henry Box Brown and other often overlooked accounts In addition to the literary autobiographies of bondage the volume will anatomize the powerful WPA recordings of interviews with former slaves during the late 1930s With essays on the genre's imaginative afterlife its final essays will chart the emergence and development of neoslave narratives most notably in Styron's *The Confessions of Nat Turner* Toni Morrison's *Beloved* and Octavia Butler's provocative science fiction novel *Kindred* In short the Handbook will provide a long overdue assessment of the state of the genre and the vital scholarship that continues to grow around it work that is offering some of the most provocative analysis emerging out of the literary studies discipline as a whole
