Slaves In Sallee:

Transatlantic Stories and the History of Reading, 1720-1810 Eve Tavor Bannet, 2011-07-07 Eve Tavor Bannet explores some of the remarkable stories about the Atlantic world that shaped Britons and Americans perceptions of that world These stories about women servants the poor and the dispossessed were frequently rewritten or reframed by editors and printers in America and Britain for changing audiences times and circumstances Bannet shows how they were read by examining what contemporaries said about them and did with them in doing so she reveals the creatively dynamic and unstable character of transatlantic print culture Stories include the other Robinson Crusoe and works by Penelope Aubin Rowlandson Chetwood Tyler Kimber Richardson Gronniosaw Equiano Cugoana Marrant Samson Occom Mackenzie and Pratt **Reports of Cases**

Argued and Determined in the Supreme Court of the State of Missouri Missouri. Supreme Court, 1863 *Charles I and the Puritan Upheaval* Allen French, 2020-11-05 Originally published in 1955 and based on research of public records and other contemporary sources this book builds up an excellent picture of England before the Civil War Through a series of case studies it examines the type of person who emigrated to New England and their motivation for doing so The wealth of evidence from original documents is clearly arranged and provides a refreshing reassessment of the period showing that although religious conviction was a clear motive for emigration the Puritans were also seeking security from hardships of other kinds **The History of Slavery and the Slave Trade, Ancient and Modern** W. O. Blake, 1861 **The Escape Agents** C. J. Cutcliffe Hyne, 1925 **A Bibliography of Morocco, from the Earliest Times to the End of 1891** Sir Robert Lambert Playfair, Robert Brown, 1893 The History of Slavery and the Slave Trade William O. Blake, 1857

Ships, Money and Politics Kenneth R. Andrews, 1991-04-26 In neglecting maritime and naval matters students of the reign of Charles I have missed or misunderstood important elements in the sickness of the early Stuart polity The crisis of the monarchy at that time was bound up with the failure of the nation's sea forces in the wars of the 1620s and with Charles's efforts to reform and strengthen the navy by means of ship money The studies of the shipping industry shipowning mutiny and one particular seaman's experience in the transatlantic servant's trade explore the economic and social aspects of seafaring especially the relations between owners masters and men at a time of rapid growth and change in the merchant marine But the relations between the merchant marine and the Royal Navy were so close that the two should be studied together The essays on Sir Kenelm Digby's privateering venture in the Mediterranean on ship money the longest and most central on the expedition against the Salé rovers and on the Parliamentary Navy demonstrate in different ways how naval policy naval finance and naval enterprise were linked with the problems and the interests of the private sector which actually took over the Navy in 1642 with not altogether savory results This novel juxtaposition of topics will it is hoped stimulate new thinking about Caroline society and politics Book jacket **The History of Slavery and the Slave-Trade, Ancient and Modern, Etc** William O. BLAKE, 1859 The Forgotten Slave Trade Simon Webb, 2020-12-28 A solid introduction and useful

survey of slaving activity by the Muslims of North Africa over the course of several centuries Chronicles Everybody knows about the transatlantic slave trade which saw black Africans snatched from their homes taken across the Atlantic Ocean and then sold into slavery However a century before Britain became involved in this terrible business whole villages and towns in England Ireland Italy Spain and other European countries were being depopulated by slavers who transported the men women and children to Africa where they were sold to the highest bidder This is the forgotten slave trade one which saw over a million Christians forced into captivity in the Muslim world Starting with the practice of slavery in the ancient world Simon Webb traces the history of slavery in Europe showing that the numbers involved were vast and that the victims were often treated far more cruelly than black slaves in America and the Caribbean Castration used very occasionally against black slaves taken across the Atlantic was routinely carried out on an industrial scale on European boys who were exported to Africa and the Middle East Most people are aware that the English city of Bristol was a major center for the transatlantic slave trade in the eighteenth century but hardly anyone knows that 1 000 years earlier it had been an important staging post for the transfer of English slaves to Africa Reading this book will forever change how you view the slave trade and show that many commonly held beliefs about this controversial subject are almost wholly inaccurate and mistaken

Defoe's America Dennis Todd, 2010-07-08 The Americas appear as an evocative setting in more than half of Daniel Defoe's novels and often offer a new beginning for his characters In the first full length study of Defoe and colonialism Dennis Todd explores why the New World loomed so large in Defoe's imagination By focusing on the historical contexts that informed Defoe's depiction of American Indians African slaves and white indentured servants Dennis Todd investigates the colonial assumptions that shaped his novels and at the same time uncovers how Defoe used details of the American experience in complex often figurative ways to explore the psychological bases of the profound conversions and transformations that his heroes and heroines undergo And by examining what Defoe knew and did not know about America what he falsely believed and what he knowingly falsified Defoe's America probes the doubts hesitations and contradictions he had about the colonial project he so fervently promoted
