sphere with the star positioned in the center and life on the walls In A Kyria the lands do not need to be traditional or follow the methods we deem normal to create places of splendor Some lands might not need a star at all but maybe a moon heated by a sun when exiting a cavern and brings the heat down with it as it travels Imagine a weaker dimmer star that travels through a channel with all the life existing upon the surface of the cavern The sun sets when it rises above the surface leaving the cavern in darkness There are lands in permanent twilight from suns that barely rise above the surface as well as others that remain fixed giving constant daylight and burned lands where the suns are too close together There are frozen wastes and oceans that stretch to the edges of forever lands of strange beliefs alien bizarre or comforting in its familiarity It is a land of infinite possibilities where magic and technology peasant and space ranger can meet just as easily as neighbors taking out the trash It is a world where the only limits are the limits you place on yourself Welcome to A Kyria
