Snow And Steel:

Snow and Steel Peter Caddick-Adams, 2014-10-31 Between December 16 1944 and January 15 1945 American forces found themselves entrenched in the heavily forested Ardennes region of Belgium France and Luxembourg defending against an advancing German army amid freezing temperatures deep snow and dense fog Operation Herbstnebel Autumn Mist was a massive German counter offensive that stunned the Allies in its scope and intensity In the end the 40 day long Battle of the Bulge as it has come to be called was the bloodiest battle fought by U S forces in World War II and indeed the largest land battle in American history Before effectively halting the German advance some 89 000 of the 610 000 American servicemen committed to the campaign had become casualties including 19 000 killed The engagement saw the taking of thousands of Americans as prisoners of war some of whom were massacred by the SS but it also witnessed the storied stand by U S forces at Bastogne as German forces besieged the region and culminated in a decisive if costly American victory Ordered and directed by Hitler himself against the advice of his generals the Ardennes offensive was the last major German offensive on the Western Front In the wake of the defeat many experienced German units were left severely depleted of men and equipment Its last reserve squandered these irreplaceable losses would hasten the end of the war In *Snow and Steel* Peter Caddick Adams draws on interviews with over 100 participants of the campaign as well as archival material from both German and US sources to offer an engagingly written and thorough reassessment of the historic battle Exploring the failings of intelligence that were rife on both sides the effects of weather and the influence of terrain on the battle's outcome Caddick Adams deftly details the differences in weaponry and doctrine between the US and German forces while offering new insights into the origins of the battle the characters of those involved on both the American and German sides from the general staff to the foot soldiers the preparedness of troops and the decisions and tactics that precipitated the German retreat and the American victory Re-examining the SS and German infantry units in the Bulge he shows that far from being deadly military units they were nearly all under strength short on equipment and poorly trained kept in the dark about the attack until the last minute they fought in total ignorance of their opponents or the terrain Ultimately Caddick Adams concludes that the German assault was doomed to failure from the start Aided by an intimate knowledge of the battlefield itself and over twenty years of personal battlefield experience Caddick Adams has produced the most compelling and complete account of the Bulge yet written

Snow and Steel Peter Caddick-Adams, 2015-06-04 Peter Caddick Adams is one of the leading military historians of his generation compared to James Holland John Keegan Anthony Beevor and Max Hastings In this his third book he reviews one of the great final engagements of WW2 The Battle of the Bulge *Snow and Steel* will be a huge reassessment of Hitler's last great throw of the dice The Battle of the Bulge the battle for the Ardennes 16 December 1944 to 25 January 1945 This is an utterly fascinating five weeks when for a time it looked like Hitler had outflanked the allied armies pushing toward the Rhine and might just throw them back to the Normandy beaches It is also

the context for the catastrophic events at Bastogne depicted so graphically in Band of Brothers For military history fans this is one of those touchstone battles of the second world war written by an author with a fast growing world wide reputation Peter will use primary archival material and personal interviews to write a controversial commercial landmark book

Snow & Steel Peter Caddick-Adams,2015 A new assessment of the Battle of the Bulge the largest and bloodiest battle fought by U S forces in World War II offers a balanced perspective that considers both the German and American viewpoints and discusses the failings of intelligence Hitler s strategic grasp effects of weather and influence of terrain and differences in weaponry understanding of aerial warfare and doctrine Snow and Steel Girolamo Sommi-Picenardi,1926 **Index to**
