book reveals how the recent economic collapse in Florida is eerily similar to events that happened there between 1925 and 1928 What sets the mid 1920s Florida land boom apart from more recent booms and busts however is that this was the first modern boom the first time that emerging new technologies mass communications and modern advertising techniques were used to sell the nation on the notion that prosperity and happiness are simply there for the taking Florida s image as a place where the rules of everyday life don t apply and winners go to play was formed during this dawn of the age of consumerism when Americans wanted to have fun and make lots of money and millions of them thought Florida was the perfect place to do that

Roman and Medieval Exeter and their Hinterlands Stephen Rippon,Neil Holbrook,2021-04-30 This first volume presenting research carried out through the Exeter A Place in Time project provides a synthesis of the development of Exeter within its local regional national and international hinterlands Exeter began life in c AD 55 as one of the most important legionary bases within early Roman Britain and for two brief periods in the early and late 60s AD Exeter was a critical centre of Roman power within the new province When the legion moved to Wales the fortress was converted into the civitas capital for the Dumnonii Its development as a town was however relatively slow reflecting the gradual pace at which the region as a whole adapted to being part of the Roman world The only evidence we have for occupation within Exeter between the 5th and 8th centuries is for a church in what was later to become the Cathedral Close In the late 9th century however Exeter became a defended burh and this was followed by the revival of urban life Exeter s wealth was in part derived from its central role in the south west s tin industry and by the late 10th century Exeter was the fifth most productive mint in England Exeter s importance continued to grow as it became an episcopal and royal centre and excavations within Exeter have revealed important material culture assemblages that reflect its role as an international port
