Sociable Plover:

The Sociable Plover Tim Whitenall, 2011 Nothing and nobody will stop Roy Tunt from spotting his wild birds and today a stormy December morning on England's desolate east coast he pursues a very special mission With one more tick in his dog eared notebook Roy will have recorded all 567 species on the British List The prevailing conditions are ideal and the time is perfect to welcome an elusive vagrant from the Asian Steppe the rare and beautiful Sociable Plover Roy sequesters himself away in a bird spotter's hide on a stretch of flooded marshland With a packed lunch and a framed photograph of his ex wife for company he watches and waits But might he perhaps have other plans And who is the tall dark and handsome stranger battling his way through the flood waters towards him All will be revealed inside the hide This quirky two hander has real charm there is as much humour as pathos to be found in Tim Whitnall's tightly written script Time Out The Scottish Naturalist, 1927 *The Man Called Kyril* John Trenhaile, 2021-01-11 There's a mole at the top of the KGB A double agent is leaking crucial Soviet secrets to London from the heart of Moscow He must be stopped before the leak becomes a full raging meltdown The KGB director turns to Ivan Bucharensky codename Kyril to smoke him out Kyril becomes live bait for both sides The British think he's a double agent The Russians in London know Kyril must die The mole thinks Kyril suspects his identity Hunted by East and West only when the last traitor dies will Kyril know who's won the deadliest game ever played A classic Cold War espionage mole hunt from the heir apparent to le Carr Today lovingly reissued for a new audience with a brand new afterword from the author Perfect for fans of Alan Furst John le Carr and Martin Cruz Smith Praise for *The Man Called Kyril* Trenhaile has written a stunning and remarkable novel of treachery and betrayal brilliantly conceived Booklist Does for the KGB what le Carr does for the British Intelligence Service Philadelphia Inquirer Kept me guessing to the very end if you like Gorky Park you'll like Kyril Newsday Shorebirds John Marchant, Peter Hayman, Tony Prater, 2010-09-30 This is a review of the whole family of waders This seminal title remains the definitive book on waders known in the US as shorebirds Included is everything you need to know about these masters of shore and wetland **Shorebirds** J. Burger, B.L. Olla, 2013-11-11 Among birds shorebirds provide some of the more unique opportunities to examine basic problems in behavior ecology and evolution This is in large measure due to the diversity both behaviorally and ecologically of a group closely related taxonomically and distributed throughout the world The overall aim of these two volumes is to provide a representative selection of current research being conducted on shorebird behavior and ecology Traditionally marine birds have included those species that breed in large colonies on offshore islands along coasts see Volume 4 of this series Although shorebirds have generally not been considered within this group the fact that almost 40% of the species breed along coasts and more than 60% often or always spend the nonbreeding season in coastal habitats more than justifies their inclusion as marine birds at least those species that totally or partially depend upon the marine environment Their inclusion markedly increases species diversity in marine birds since shorebirds add about 217 species to the 280 that are traditionally thought of

as marine **Birds of Essex** Simon Wood,2009-01-01 The County Avifaunas are a growing series giving full details of the status and range of every species recorded in the county in question Each title covers all species on the county list with a detailed breakdown of rarity records and each has introductory sections describing the county s general ecology climate weather patterns its ornithological history and conservation record Essex is of national and international importance to many migrating and wintering wildfowl and waders which can be found on the estuaries Further inland the Lea Valley harbours important populations of several species within the complex of reservoirs and gravel pits Elsewhere the diverse habits of woodland and parkland heaths and commons agricultural land and urban areas mean that at all times of year there is the opportunity to see upwards of 100 species in a day with little effort This book analyses and summarises all the data collated and documented over the last 200 years and includes available records to the end of 2004 Introductory chapters discuss the geology and habitats of Essex and the amazing fossil bird record The individual accounts provide an up to date status of each species and patterns of occurrence within Essex A distribution map is included for most breeding species A breakdown and analysis are provided for all county rarities Superb line drawings and photographs illustrate the book all by talented local artists and photographers This book is an essential reference for anybody who has watched birds in this amazing county
