The Social and Political Philosophy of Jacques Maritain. Selected Readings by J.W. Evans and L.R. Ward Jacques Maritain, J. W. Evans, L. R. Ward, 1956

Political Augustinianism Michael J.S. Bruno, 2014-09-01 The thought of Saint Augustine stands as one of the central fountainheads of not only theology but Western social and political theory Political Augustinianism examines modern political readings of Augustine providing an extensive account of the pivotal French British and American strands of interpretation Bruno guides readers through these modern strands of interpretation examines their historical theological and socio political context and discusses the hermeneutical underpinnings of the modern discussion of Augustine s social and political thought

The Routledge Dictionary of Twentieth-Century Political Thinkers Robert Benewick, Philip Green, 2002-09-11 This edition has been revised and extended to include eleven new entries on Berlin Chomsky Derrida Rorty and many others Comprising 169 entries it also includes non Western political thinkers

The Limits of Political Theory Kenneth B. McIntyre, 2015-10-15 This book examines Oakeshott s political philosophy within the context of his more general conception of philosophical understanding The book stresses the underlying continuity of his major writings on the subject and takes seriously the implications of understanding the world in terms of modality The book suggests strongly that Oakeshott s philosophy of political activity cannot be reduced to a branch of conservatism liberalism or postmodernism or a theory or set of doctrines which fit neatly into any conventional school like that of Idealism or Skepticism Rather Oakeshott s philosophy of political activity is a provocation to all of the currently dominant schools of political theory and political practice It questions their presuppositions and exposes as ambiguous arbitrary or confused all of the supposed certainties which they take for granted It does all this by offering profound insights into the character and limits of both political activity and political theory in the modern world
