An Economic and Social History of Later Medieval Europe, 1000-1500 Steven A. Epstein, 2009-04-27 This book examines the most important themes in European social and economic history from the beginning of growth around the year 1000 to the first wave of global exchange in the 1490s These five hundred years witnessed the rise of economic systems such as capitalism and the social theories that would have a profound influence on the rest of the world over the next five centuries The basic story the human search for food clothing and shelter in a world of violence and scarcity is a familiar one and the work and daily routines of ordinary women and men are the focus of this volume Surveying the full extent of Europe from east to west and north to south Steven Epstein illuminates family life economic and social thought war technologies and other major themes while giving equal attention to developments in trade crafts and agriculture The great waves of famine and then plague in the fourteenth century provide the centerpiece of a book that seeks to explain the causes of Europe's uneven prosperity and its response to catastrophic levels of death Epstein also sets social and economic developments within the context of the Christian culture and values that were common across Europe and that were in constant tension with Muslims Jews and dissidents within its boundaries and the great Islamic and Tartar states on its frontier **Women, Family, and Society in Medieval Europe** David Herlihy, 1995 A selection of Herlihy's essays compiled as a tribute to his influence His particular interest in the nature of the family and the role of women within that unit is amply reflected in this volume Articles include Did women have a renaissance The Florentine Merchant family in the Middle Ages Biology and History Suggestions for a Dialogue **An Introduction to Medieval History** Dorothy Dymond, 2023-11-06 First Published in 1929 An Introduction to Medieval History presents a comprehensive overview of the social political and religious movements that inspired medieval civilization and still influence the civilization of our own day It brings crucial themes like the heritage of Rome church and the Empire the peasant and his Lord nations and kings empire and papacy the eastern empire and the Crusades transition to modern times decline of empire and papacy decline of feudalism and development of trade and towns and the Renaissance This introductory book is useful for history students in secondary schools and training colleges and general readers interested to know about the medieval times **Out of the Ashes** Robin Williams-McClanahan, 2006 **The Later Middle Ages** Isabella Lazzarini, 2021-04-29 Of all the sub periods in which European medieval history has been divided over time the later middle ages is possibly the one on which the burden of past and current grand narratives weighs the most Its chronological and geopolitical boundaries are shaped by a heavy narrative of decline or transition and consequently this period is often interpreted through the lenses of previous or following developments becoming in turn the tail end of the feudal communal imperial versus papal era or the announcement of modernity The Later Middle Ages addresses the urgent need to revise and rewrite the story of this period forging new critical and technical vocabularies not derived from the study of other periods By adopting a conscious approach towards temporal

and spatial variety and by breaking the traditional and unitary narrative of decline and transition into one of many changes and continuities it charts the principal developments of late medieval Europe while opening up to different political cultures and societies throwing new light on older concepts and revealing analogies and differences with other geopolitical contexts Including maps illustrations a detailed chronology and a rich range of reading suggestions The Later Middle Ages aims at providing a first introduction to a very complex dynamic and fascinating period for Europe and beyond Ecologies and Economies in Medieval and Early Modern Europe Scott G.
