Comparative Politics: Western Europe and the United States: foundations of comparative politics,2005 **Protesting Culture and Economics in Western Europe** Swen Hutter,2014-08-01 In this far reaching work Swen Hutter demonstrates the usefulness of studying both electoral politics and protest politics to better understand the impacts of globalization Hutter integrates research on cleavage politics and populist parties in Western Europe with research on social movements He shows how major new cleavages restructured protest politics over a thirty year period from the 1970s through the 1990s This major study brings back the concept of cleavages to social movement studies and connects the field with contemporary research on populism electoral behavior and party politics Hutter s work extends the landmark 1995 New Social Movements in Western Europe the book that spurred the recognition that a broad empirical frame is valuable for understanding powerful social movements This new book shows that it is also beneficial to include the study of political parties and protest politics While making extensive use of public opinion protest event and election campaigning data Hutter skillfully employs contemporary data from six West European societies Austria Britain France Germany the Netherlands and Switzerland to account for responses to protest events and political issues across countries Protesting Culture and Economics in Western Europe makes productive empirical methodological and theoretical contributions to the study of social movements and comparative politics Empirically it employs a new approach along with new data to explain changes in European politics over several decades Methodologically it makes rigorous yet creative use of diverse datasets in innovative ways particularly across national borders And theoretically it makes a strong claim for considering the distinctive politics of protest across various issue domains as it investigates the asymmetrical politics of protest from left and right

The Politics of Nuclear Energy in Western Europe Wolfgang C. Müller,Paul W. Thurner,2018-01-26 This volume investigates nuclear energy policies in Western Europe over the entire post war period but with special attention to the two most recent decades The comparative analytical perspective draws on the interplay between voters attitudes challenging movements party competition and coalition formation Spanning more than 60 years and 16 countries the researchers examine the underlying causal processes leading to the observed varieties of Western European nuclear energy policies Based on a mixed methods approach using both structured case studies as well as quantitative analyses the study shows that the nature of party competition under given institutional contexts is a key driver for as a rule tactically motivated governmental policy changes and stability respectively Part I introduces the practical and theoretical relevance of the topic It outlines the reasoning of the major scientific contributions with regard to nuclear energy policies and offers a theoretical alternative to the previous literatures that has been predominantly movements oriented Additionally it provides core economic and political

indicators of the changing role of nuclear energy in the countries Part II consists of seven in depth case studies where the outlined theoretical perspective is applied Part III consists of a general summary short narratives of the countries not covered in case studies qualitative comparison and an assessment of the factors for policy change from multivariate analysis

Contemporary Western European Feminism (RLE Feminist Theory) Gisela Kaplan, 2012-11-12 Contemporary Western European Feminism is a ground breaking history of feminism Gisela Kaplan invites a critical analysis of current ideas terms and assumptions about our modern world Written confidently and with compassion this is the story of a long revolution that has set out to change predominant attitudes and transform value hierarchies and human lifestyles By outlining the postwar histories of individual countries Kaplan contextualises women s movements and documents a significant chapter of European social history She poses questions about the interrelationship between the new movements and the parliamentary democracies in which they occurred while analysing the contradictions of living in modern capitalist countries Contemporary Western European Feminism also tackles important contradictions such as those between the welfare state and the free market economy industrialisation and religious value systems social engineering and the production of wealth and dissent and patrimonial systems of democracy For those wanting to know more about Europe without the intimidating barriers of language and for those already experts in its social history Contemporary Western European Feminism is essential reading

Urban Activism in Western Europe from the 1950s to the 1980s Tim Verlaan, Christian Wicke, 2024-07-23 Bringing together contributions from social political and urban historians this collection examines social movements in Western European cities from the 1950s to the 1980s Since their post war recovery and reconstruction cities in this part of the world underwent far reaching societal transitions such as deindustrialisation and the rise of the service economy the expansion and decline of local welfare regimes suburbanisation and urban redevelopment and the democratisation of urban politics Indeed the sources for urban activism have been manifold and the rehistoricization of this era through an urban lens is therefore valuable The authors of this volume seek to provide a comprehensive and multifaceted understanding of how structural socio economic political and cultural changes ideological shifts and urban spaces were intertwined in various place dependent ways By doing so they offer fresh comparative and conceptual perspectives on urban activism The book focuses on the long 1970s a structural break in time across the industrial West which corresponded with the emergence of new social movements and an urban crisis that left a wasteland of abandoned factories dilapidated workers housing and stalling redevelopment schemes in its wake Addressing how the post industrial revolution socially ideologically and physically manifested itself in the urban environment this book provides useful insights for colleagues in the fields of urban history social history political history and social movement studies
