of industrial plants belching smokestacks and hills upon hills of landfills Yet those living and working in New Jersey often experience a very different environment Despite its dense population and urban growth two thirds of the state remains covered in farmland and forest and New Jersey has a larger percentage of land dedicated to state parks and forestland than the average for all states It is this ecological paradox that makes New Jersey important for understanding the relationship between Americans and their natural world In New Jersey s Environments historians policy makers and earth scientists use a case study approach to uncover the causes and consequences of decisions regarding land use resources and conservation Nine essays consider topics ranging from solid waste and wildlife management to the effects of sprawl on natural disaster preparedness The state is astonishingly diverse and faces more than the usual competing interests from environmentalists citizens and businesses This book documents the innovations and compromises created on behalf of and in response to growing environmental concerns in New Jersey all of which set examples on the local level for nationwide and worldwide efforts that share the goal of protecting the natural world

The Retreats of Reconstruction David E. Goldberg, 2016-11-01 Beginning in the 1880s the economic realities and class dynamics of popular northern resort towns unsettled prevailing assumptions about political economy and threatened segregationist practices Exploiting early class divisions black working class activists staged a series of successful protests that helped make northern leisure spaces a critical battleground in a larger debate about racial equality While some scholars emphasize the triumph of black consumer activism with defeating segregation Goldberg argues that the various consumer ideologies that first surfaced in northern leisure spaces during the Reconstruction era contained desegregation efforts and prolonged Jim Crow Combining intellectual social and cultural history The Retreats of Reconstruction examines how these decisions helped popularize the doctrine of separate but equal and explains why the politics of consumption is critical to understanding the long civil rights movement

Pursuing Johns Thomas C. Mackey, 2005 In *Pursuing Johns* Thomas C Mackey studies the New York Committee of Fourteen and its members attempts to influence vagrancy laws in early 20th century New York City as a way to criminalize men's patronizing of female prostitutes It sought out and prosecuted the city's immoral hotels unlicensed bars opium dens disorderly houses and prostitutes It did so because of the threats to individual character such places presented In the early 1920s led by Frederick Whitin the Committee thought that the time had arrived to prosecute the men who patronized prostitutes through what modern parlance calls a john's law After a notorious test case failed to convict a philandering millionaire for vagrancy the only statutory crime available to punish men who patronized prostitutes the Committee lobbied for a change in the state's criminal law In the process this representative of traditional 19th century purity reform allied with the National Women's Party the advanced feminists of the 1920s Their proposed Customer Amendment united the moral Right and the feminist Left in an effort to alter and use the state's criminal law to make men moral defend their character and improve New York City's overall morality Mackey's contribution to the literature is unique Instead of looking at how vice commissions targeted female prostitutes or the commerce supporting and surrounding them Mackey concentrates on how men were scrutinized Book jacket
