Social Competence in Developmental Perspective B.H. Schneider, Grazia Attili, Jacqueline Nadel, Roger P.

Weissberg, 2012-12-06 What determines the focus of a researcher's interest the sources of inspiration for a study or the variables scrutinized If we were to examine the antecedents of these decisions they would surely emerge as accidents of circumstance the personal experiences of the researcher the inspiration of early mentors the influence of contemporary colleagues all tempered by the intellectual currents that nurture the researcher's hypotheses Among the accidents that mold the careers of researchers is geographic location The culture in which a research program emerges helps determine both its very subject and its method The primary purpose of this book is to assist those interested in the scientific study of children's social competence in transcending the boundaries imposed both by geography and by selective exposure to the highly diverse schools of thought that have led to interest in this field Most of these ideas were presented and exchanged at an Advanced Study Institute entitled Social Competence in Developmental Perspective held in Savoie France in July 1988 This Institute was attended by scholars from France England Northern Ireland Germany Italy Norway Spain Portugal Netherlands Canada the United States and Brazil Those who participated will recognize that the metamorphosis from lecture to chapter has necessitated many changes In order to accommodate the reader who may be unfamiliar with the field more attention has been paid here to identifying the theoretical contexts of the research described *Parent-Child Play* Kevin
