The New Nationalism Werner Link, Werner J. Feld, 2013-10-22 *The New Nationalism Implications for Transatlantic Relations* is a collection of papers that examines the effects of transatlantic relations along with the concept of new nationalism. The first chapter of the text provides an introductory discourse about new nationalism while the second chapter provides a further analysis in the concept of new nationalism. The next chapters deal with new nationalism and how it relates to external policies. The remaining chapter tackles the relationship between new nationalism and sub national regionalism. The book will be of great interest to economists, political scientists and diplomats. Individuals who have keen interest in the global diplomatic trend will also benefit from the text.

The New Nationalism Werner Link, Werner J. Feld, 1977 New Nationalisms of the Developed West Edward Tiryakian, Ronald Rogowski, 2020-03-13 Originally published in 1985 *New Nationalisms in the Developed West* is a collection of interdisciplinary and insightful essays on modern nationalist movements. The book argues that these movements have challenged the power of Western nation states not from without but from within their frontiers. The book's focus remains predominately on Western societies and the nationalist movements of nations against states. The essays in this book are detailed and innovative and analyse nationalism through theory, methodology and empirical evidence. The book's use of research methods deepens the comparative explanation of nationalist movements and advances understanding of Western nationalisms as social movements and examples of social change in the developed world. This book will appeal to social scientists in political science and sociology.

Directions Of Change & Modernization Theory, Research, And Realities Mustafa O Attir, 2019-04-11 After a period of relative confidence about the future of modernizing societies, scholars are now questioning with renewed urgency the directions of the modernization trend. This book, the result of nearly a decade of collaborative efforts by scholars in twelve countries, examines the modernization process with particular attention to how it is aff.

Export Dependence versus the New Protectionism Glenn Randall Fong, 2017-10-10 In an international political economy characterised both by constancy and change, this study first published in 1996 links together one seemingly incongruous continuity in international trade relations with an increasingly dramatic development in the economies of industrial countries. On the one hand, industrialised countries have become progressively dependent upon one another. On the other hand, the liberal international trade regime has yet to falter. These two points are tied together by seeking to explain the maintenance of liberal trade relations in terms of the mutual economic dependence of industrial countries. In particular, the study examines what may be a fundamental constraint on trade protectionism today: the reliance of industrialised countries on external trade relations and especially on markets within the industrial world.
