The New Of Knowledge Volume 1 A:

A Treasury of biblical and theological knowledge. Book I. Rev. James WILSON (of Hyde, Cheshire.),1845

Personal Reality, Volume 1 Daniel Paksi,2020-05-28 Western civilization was built on the concept of God Today modern science based on the critical method and so called objective facts denies even the existence of our soul There is only matter atoms molecules and DNA sequences There is no freedom there are no well grounded beliefs The decline of Western civilization is not the simple consequence of decadence hedonism and malevolence Modern critical science has liberated us from the old dogmas but failed to establish our freedoms values and beliefs However human knowledge is not objective but personal We are the children of evolution Everybody sees the world from his own personal point of view anchored into his her body We use our billions of years old evolutionary skills and thousands of years old cultural heritage to recognize and acknowledge the personal facts of our reality freedom and most important natural beliefs respect and speak the truth In reality even science itself is based on our personal knowledge Only our false conceptual dichotomies paralyze our thinking God or matter There is a third choice the emergence of life and human persons This is the only way to defend our freedoms and the Christian moral dynamism of free Western societies

A Very Short, Fairly Interesting and Reasonably Cheap Book About Knowledge Management Joanne Roberts,2015-06-18 Written in a lively conversational style Knowledge Management looks at the nature of knowledge including its definition and measurement before the main concepts and theoretical contributions to knowledge management are reviewed and challenged providing fresh insights into the central debates Conceived by Chris Grey as an antidote to conventional textbooks each book in the Very Short Fairly Interesting and Reasonably Cheap series takes a core area of the curriculum and turns it on its head by providing a critical and sophisticated overview of the key issues and debates in an informal conversational and often humorous way Suitable for students of Business and Management courses at Undergraduate and Postgraduate level and anyone interested in the concept of knowledge management
