The New Religious Order The Pabionists And The Option For The Poor:

The New Religious Order James Ross Sweeney, 1994 *Towards a New Catholic Church in Advanced Modernity* Staf Hellemans, Jozef Wissink, 2012 A new Catholic Church is emerging in the West one that is very different from the Church before 1960 This book describes the new Church in the making its new position in society its new structuring and workings and its new frame of mind The book also looks in a prospective way at some basic issues the Church has to deal with such as imagining the Church in advanced modernity attracting both youth and adults rebuilding local communities refashioning liturgy and rethinking pastoral guidance The book is the result of an interdisciplinary endeavor by philosophers sociologists and theologians Series Tilburg Theological Studies Tilburger Theologische Studien Vol 5

Receptive Ecumenism and the Call to Catholic Learning Paul Murray, 2010-05-06 This volume proposes a fresh strategy for ecumenical engagement Receptive Ecumenism that is fitted to the challenges of the contemporary context and has already been internationally recognised as making a distinctive and important new contribution to ecumenical thought and practice Beyond this the volume tests and illustrates this proposal by examining what Roman Catholicism in particular might fruitfully learn from its ecumenical others Challenging the tendency for ecumenical studies to ask whether explicitly or implicitly What do our others need to learn from us this volume presents a radical challenge to see ecumenism move forward into action by highlighting the opposite question What can we learn with integrity from our others This approach is not simply ecumenism as shared mission or ecumenism as problem solving and incremental agreement but ecumenism as a vital long term programme of individual communal and structural conversion driven like the Gospel that inspires it by the promise of conversion into greater life and flourishing The aim is for the Christian traditions to become more not less than they currently are by learning from or receiving of each other's gifts The 32 original essays that have been written for this unique volume explore these issues from a wide variety of denominational and disciplinary perspectives drawing together ecclesialogists professional ecumenists sociologists psychologists and organizational experts

Catholic nuns and sisters in a secular age Carmen M. Mangion, 2020-01-09 This is the first in depth study of post war female religious life It draws on archival materials and a remarkable set of eighty interviews to place Catholic sisters and nuns at the heart of the turbulent 1960s integrating their story of social change into a larger British and international one Shedding new light on how religious bodies engaged in modernisation it addresses themes such as the Modern Girl and youth culture 1968 generational discourse post war modernity the voluntary sector and the women's movement Women religious were at the forefront of the Roman Catholic Church's movement of adaptation and renewal towards the world This volume tells their stories in their own words

Authority in the Roman Catholic Church Bernard

Hoose,2017-03-02 How did the present authority structures within the Church come into existence How if at all can we justify their existence What form of authority should exist in the Church These and other related questions exercise the minds of many Christians in these days when the very notion of authority is questioned but debate about them is perhaps nowhere more lively than within the ranks of Roman Catholicism This book offers an important contribution to such debate within that church Leading Catholic theologians from both sides of the Atlantic take up the key issues analysing the concept of authority and governance examining the history of authority within the Roman Catholic church discussing who should have a say in future developments exploring ecumenical dimensions with particular reference to Anglicanism and the Orthodox churches and suggesting the kind of reforms that might be prudent as well as ways in which such reforms might be brought about The book will prove of interest to many Roman Catholics but given the ecumenical impact of many of the issues explored it is likely to exert a wide appeal far beyond the confines of that church

Reading Religion in Text and Context Peter Collins,2017-05-15 To what extent is religion inherently textual What might the term textual mean in relation to religious faith and practice These are the two key questions addressed by the eleven thought provoking essays collected in this volume Accounts of the content and structure of sacred texts are commonplace The rather more adventurous aim of this book is to disclose within the context of religion the

various ways in which meaning can be read of more or less obviously sacred writing and from discourses such as the body the built and natural environment drama and ritual *Catholics in England 1950-2000* Michael Hornsby-Smith, 1999-12-01 The year 2000 marks the 150th anniversary of the restoration of the Roman Catholic hierarchy of England and Wales following the post Reformation penal times The centenary in 1950 was celebrated with much reflection but what has happened in the momentous half century since which has witnessed the transformation of the Second Vatican Council The book includes Historical perspectives of the period Testimonies by key participants in post war institutional Catholicism including the Papal Commission on Birth Control World Congresses of the Laity in Rome and a variety of experiences in Catholic organizations and public life Empirical studies of English Catholicism from sociological perspectives Concluding reflections and prospects for the new millennium *International Encyclopedia of the Social & Behavioral Sciences* Neil J.
